The Coming Convention

The democrats will hold a national convention next week at Denver. It is already settled who will be the nominee for President, Mr. Bryan, a man with a clean record. Governor Johnson, of Minnesota, is also a man who stands high, a man with a good record, but it will not come his way this time. Some time it may. The great contest will be for vice president. Oregon's Governor has been mentioned, but he will probably not be named in the convention. Nor is he a candidate. It will undoubtedly be better for him to wait until he has had an experience in the U. S. Senate. There is this to it, though, should he permit the use of his name it will be significant of the chances of the democratic ticket, for he has a way of getting on the winning side.

Making Cabinets in the Air

Albany is not the only place where carpenters are busy. A crowd of them have their hands full making a cabinet for Mr. Taft. Mr. Taft hasn't got his lot yet, so that the present cabinet work is mostly in the air. Mr. Falton is being suggested for a place in the barn, and there are others. Perhaps Mr. Taft has more sense than to do such a thing, but the country is full of amateur carpenters who are busy diving nails. Between November and March there is plenty of time to make the cabinet. The people will settle it on the first Tuesday in November, so that much of the present talk is extreme childishness.

4th of July Patriotism.

Patriotism is loyalty to the government. It isn't yelling or making a big display. It is all right, though, to do these things. 4th of July celebrations are proper and timely. Even if some people make fools of themselves by their excesses on the day, as a whole the glorious 4th is an expression of loyalty to the government. Albany this year proposes to have a clean celebration.

Our people will do well not to make a mere commercial affair out of it. Money helps, but there are other things to consider.

Oregon Banks

Complete figures just compiled show the following statistics for the banks of Oregon:

Resources of \$106,393,091, of which amount \$17,892,000 in the form of loans and discounts; \$15,600,000 securities, bonds, etc.; \$17,500,000 due from other banks, and \$14,700,000 cash. Of the liabilities, \$11,107,000 is capital stock, \$6,000,000 surplus and undivided profits, \$8,300,000 due to other banks and \$75,000,000 deposits. The report covers 132 state and 50 national banks.

A prohibition plank may not be in the coming democratic platform, but the time is coming when it will be in the platforms of both of the big parties. The liquor question is one of the great issues of the day, and it is going to have to be considered in politics, as well as morally.

Judge Parker might be induced to accept the nomination for vice president at Denver, just to show his appreciation of the support he received from Mr. Bryan in 1904.

Everybody is wanted to ride horseback on the 4th, whether having the costume requested or not. Get in line anyway.

DOINGS

An ingenious window display is at Ohling & Taylor's, a battleship, topped with flags and bunting, made up entirely of articles in the store. It is a good one and has received many compliments.

H. C. Harkness has completed a big cement walk contract along the properties of J. G. Crawford and W. H. Hogan, on Ellsworth and adjoining streets. For the first time he uses some new corners, a neat arrangement. The job is a good one, splendid sidewalk.

The Palace Feed Stable is ready for business, as promised. It took hustling. The electric supply people have been a busy crowd. Electricity is a first-class decorator.

Flags Galore

E. J. Arnold, of the carnival shows, is doing his share towards decorations for the 4th. During the day he has been running a line of flags from Washington street to Lyon street, and from First street to the show grounds on Ferry and Broadalbin streets, six large flags in a block, adding wonderfully to the general effect. Old glory will be strictly in it on the 4th.
