There Are Issues

The DEMOCRAT'S Washington Corres-

The republicans are trying to make the voters believe that there is practically no issues in this campaign but issues are appeaaing rapidly and issues of such character are developing as will overwhelm them at the November polls. The tariff has loomed above the horizon in a very threatning manner to the republican interest.

The republicans have been preaching the doctrine of protection for years and years and the fallacy of that doctrine has been overwhelmingly established and in fact, the word protection means now nothing more than protection to the trusts. The protective tariff is not in the interest of the people but of these rapacious trusts that are gorging every cent possible out of Americans. For instance the great steel trust is selling steel rails in London for \$22 per ton and are charging the Americans \$28 per ton. If it were not for the tariff they would be compelled to sell the steel rails to the Americans at the same rate that they sell them to the English but they having the benefit of the high tariff, can exclude the compe-tition of the English manutacturers and thus pray on the Americans at their pleasure. The same is true of the wire nail trust which is charging the farmers 50 per cent more for their wire, fences and nails than they do the foreigners. The same is true of house hold articles; the sowing machine trust is selling machines in London and Paris for about \$15 less than they are to the American consumer. The same is also true of the watch trust and numbers and numbers of articles can be mentioned along the same line. The American people have been tricked and defrauded on these lines long enough and the worm is going to turn and with it, they will turn the republican party out of power, for they have not only permitted this tariff robbery to go on but they have done absolutely nothing effec-tive in the way of curbing these great trusts. In fact, they are as strong today as they were when Roosevelt came into power. This is shown by the case with which they nullified the \$29,000,000 fine against the Standard O:1 Company in the Circuit Court of Appeals. The trusts absolutely own the republican appointed by that party. We cannot of ours, isn't it. bring relief to the people until the republicans are kicked out of power.

### Miller in Chicago.

From a Dispatch:

Milton A. Miller, democratic committeeman for Oregon, is conferring with the national committee with reference to campaign plans in Oregon. Miller is a member of the subcommittee on speakers. He\_has been drafted into headquarters work by Chairman Atwood, to answer correspondence and give assistance with the details of that department of campaign work.

Conferences are being held to decide whether to send speakers into Oregon.

Mr. Miller has obtained information from officials here that is highly encouraging as to general campaign prospects. He will meet National Chairman Mack when the latter returns from New York.

Pressure has been brought to bear bureau. He refuses to remain and is party.' expecting to return as soon as next week's conferences end.

### All the Same as Oregon.

office, like Senator Fulton, but the people said otherwise. Jones was liked the better. He will be elected by the legislature, just the same as Governor Chamberlain, provided he beats the is run in November. The man who has the most votes should be chosen by the state legislature and No legislature dares override the will of the people.

more that the Willamette Valley is a world. Hence Mr. Hearst may not be ed. splendid peach country. This is true both of quality and quantity. Our tion. peaches are far ahead of those sent in here from California in flavor, and they are prolific in growth

The DEMOCRAT hopes to see active work on the electric street railway begin as promised, and pushed to a cometion without any stumbling blocks. because it isn't better. We need it, and we need it bad,

With pacers having a record of 2:0334 at the state fair there ought to be some races that will satisfy the crowds. A good horse race on the square is a fine sight.

The new Independence party will have some electors in the field in Oregon, and they will undoubtedly receive a pretty good vote, that is a thousand

### Saturday Night Thoughts.

Something in national politics this week has been a bout between Speaker Cannon and Mr. Bryan. Mr. Cannon is the despot who rules over the House, shutting people up and out according to his own taste regardless of rights, ex-cept his own. He is an odd character in American history, a genius in his way, which is all Cannon and his friends, a man of narrow policies, who would be a Czar of Russia if he had the power. Most people can see through

This week a new record was made back east. It was in an airship flight, an arist keeping his machine up for minutes, which is considered something marvelous. That is not long for a balloon, but it is for a machine which depends upon power. But some day it will not be long for an aeroplane. The genius of man can overcome anything Perhaps this airship business will fall before his marvellous powers.

before his marvellous powers.

The flight of the American fleet is of particular interest to the people of this city, because it has reached a place of the same name over on the Australian coast. Wherever, it was it makes coast. Wherever it goes it makes friends, not from fear, because there is nothing to fear, but for friendship for a nation that represents something among the nations of the world.

How easy it is to violate the small laws that are made to govern our actions. Most people do it. It is easy to see the motes in other peoples eyes see the motes in other peoples eyes An interesting thing is the number of city ordinances that are not observed as they should be, for instance, bicycle riding on prohibited streets and without lights, merchants occupying more sidewalk 100m than allowed, boys out at hight, chickens running at large, thistels all around, men with concealed weapons, blind pig nuisances, trash blurned in prohibited places, animals left unhitched, profane language, cars, automobiles, bicycles and horses, going taster than the provisions of the law allow, streets roamed at night, horses hitched to awning posts, rubbish thrown in the street, etc., all punish thrown in the street, etc., all punish the as misdemeanors. But because one person fails to observe the law that has nothing to do with another. Come to think of it, this is a great old world. An interesting thing is the number of has nothing to do with another. Come party and the judges which have been to think of it, this is a great old world

of ours, isn't it.

\*\*

It is always a good quality in a person who makes a mistake when he admits it and shows an appreciation of the fact that he doesn's propose to do
