

National Democratic Ticket.

For President—William J. Bryan. For Vice President—John W. Kern. For Presidential Electors—O. P. Coshov of Douglas county, August Hackett of Marion county, E. S. J. McAllister of Multnomah county, Samuel White of Baker county.

The New York Herald's Figures.

The New York Herald which possesses a skill of accuracy seldom equaled in feeling the political pulse, is astonished at the result of its recent investigations. About the first of September, they estimated that Mr. Taft had 206 sure electoral votes and that Mr. Bryan only had 161 sure votes of the 242 necessary to elect. In a recent issue of that paper they declared that Ohio, North Dakota, Kansas and Oregon which they had placed in the sure republican column must be taken out and placed in the doubtful column with strong, democratic leanings. The New York Herald during the last twenty-eight years has been an unerring political prophet and while it is an independent paper, the forecast that they make, shows that Bryan's election is now almost certain. This discovery was a great puzzle to the Herald at the outset but they have now discovered the secret. It is Roosevelt's despotic dictation to the republican leaders that has resulted in a feeling of disgust and apathy not equalled in Harrison's overwhelming defeat in 1892. All the leading republicans feel that the nomination of Mr. Taft was not made by the republican party but by the direct appointment of Mr. Roosevelt himself. This is a kind of political game not relished by republicans and it is said that hundreds of life-long republicans in every republican county are going to cast their ballot for Mr. Bryan as a rebuke for this dictatorship. They want to teach Mr. Roosevelt a lesson that will be remembered by all his successors in the White House.

Mud Slinging.

It was hoped by members of both parties that this campaign would pass off without any bitterness or mud-slinging being indulged in. It has remained for Mr. Roosevelt, the president of the United States, to lower himself to the level of a ward politician and to revive the old disgusting methods of mud-slinging campaigns. Every man in the country that knows the record of Mr. Bryan, knows that he is as incorruptible as Lincoln or Washington ever were, and superior to Roosevelt or Taft. Everyone of the policies that Mr. Roosevelt claims as his own was taken bodily from the teachings of Mr. Bryan and democratic platforms and it is a fact that Mr. Roosevelt never originated a single one of them. This is what makes Roosevelt so mad.

Albany Fall.

One thing is certain, and that is that Albany is going to need more room for transients, as well as for permanent new comers. Several times people have been unable to find a place to sleep at the hotels. One night recently a man and his wife after hunting went into a confectionary store when arrangements were made for them to go home with the proprietor, sleeping in the bed of a son. This should be met, not by sending word to Mr. McMurry not to put any more people off at this city, but in a sensible way, by having more room for people. The hotels should make arrangements for extra sleeping rooms.

Automobile Liberty.

These automobile races are becoming a menace to life, one rarely occurring without a fatal accident. Perhaps men have a right to run risks in this great American free republic, the land of liberty, but all freedom is hedged about by restrictions, and it is about time auto races, bull fights and prize fights were placed in the same category. Excitement sometimes is all right; but it is not necessary in a community as a policy, and the average city is better off without sensations.

The best sign seen yet is the fact that the entire Willamette Valley is going ahead, not one city alone, but all of them. People are coming to this valley thick and fast and staying. There may be a question which city will grow the most and fastest, but there is none as to all of them going ahead. The DEMOCRAT doesn't know of any place having better prospects than Albany. It is improving in the kind of a way that counts in the long run.

A Seattle girl has thrown a base ball 195 feet, and they consider the feat a record breaker. That's very mild compared to the Albany girl who threw her month-old wad of chewing gum away so that she could begin on a fresh package.—Statesman. Nor of the Salem carpenter who threw his hammer into the middle of the river, because there was no use for it in the city. Now, hit Albany again.

Frenzied Thoughts

What the "Big Stick" says to the New York republican managers goes. Even Bryan himself didn't begin to believe that Taft was so easy to lick.

The Hon. John Temple Graves wants the joint debates of the land, and let who will be president.

When T. Roosevelt sails into the campaign, it is time to start another Ananias Club.

One of Willie Hoist's Independence clubs down in New York deserted the great leader the other night, coming out for Bryan and Kern. They just cannot keep off the Bryan band wagon this year.

In Kansas it is necessary for Mr. Taft to run on the democratic platform. He and Teddy are both trying to get on it.

Mexico wants Diaz again for president. Probably because she can't help herself.

Oklahoma has a depositors guaranty law, and since the law went into effect the deposits in the banks have increased \$3,644,540.50, and it had been in force only six months. The unsecured banks show a big decrease in deposits. The right kind of a guaranty law will be an immense thing for the country.

One of the owners of the First street property to be covered with a brick reports seven or eight applications for store room. This fact tells its own story. Albany's business interests are the best in its history.

The worst fool campaign argument used is that we might have a panic if Bryan is elected, and we have just had one, and a live one under Mr. Roosevelt. It simply shows that some one is frightened.

GOLD CREEK MINES

As Seen by an Albany Man.

F. H. Colpitts returned last evening from the Gold Creek mines, where he has been for some time in work of different kinds connected with the mines and the new townsite. A fine road has been built to within two miles of the mines, good enough for bicycles.

While Mr. Colpitts was there a committee from the Salem board of trade, F. J. Rice, F. J. Laffey and Herman W. Barr, were in to make an examination of the proposition in the interest of Salem and the promotion of the \$100,000 smelter. They were much pleased with the condition of affairs, and have made an exhaustive report, covering about three columns in this morning's Statesman, endorsing the enterprises involved. They go into details in connection with the different mines.

The great need of the district is more money \$100,000 is needed for development, more should be an electric road in, and the people of Salem are urged to give the enterprises involved their hearty support.

It is one which interests Albany, close to Salem.

The Library.

Editor Democrat: There having been many inquiries as to the conditions upon which one can take books from our library, we thought it might be well to publish in the papers a little explanation regarding this matter, that all might know there are no "conditions" only responsibility for the books; that the books are free for all to read, and that every one is welcome to the reading room when the library is open.

We hope, however, that every patron of the library will feel impelled to help in the work and to give what they can to help defray the expenses, and to purchase new books from time to time, as they are needed and called for. All donations may be handed to the librarian, Miss Gard, who is treasurer of the board.

We hope by the generosity of the public and our own endeavors to be able soon to keep the rooms open every day. We have been asked "what expenses do you have?" many people forgetting that we have not to pay, and that although the librarian has so far given her services, she cannot continue to do so very long.

A Lane County Tragedy.

Lane county has a tragedy. Harry Tabor, postmaster at Alpha, in a quarrel in Tabor's pasture with Harry Stuckey, a neighbor, shot him, resulting in his death. Mrs. Stuckey was with her husband. Both men are said to have drawn their revolvers at about the same time. Tabor claims Stuckey reached for his first. Mrs. Stuckey swears that Tabor whirled around and shot her husband without any warning at all. The men had trouble for some time.

A Socialist Address.

E. J. Lewis, the socialist speaker sent out from the East, spoke last night on the Barrett Bros. corner to a good sized crowd. He is reported to have been a good talker. Of course he pursued the usual course of socialist speakers flying the old parties and exalting socialism. Mr. Lewis is a former mine worker, and makes a good appearance.

Who is about to stomp Oregon for Taft, whose managers here are said to be somewhat frightened.

OREGON.

Portland, Oct. 5. The numerous Hearst publications have been personally represented throughout Oregon and Washington recently by Ray Washington Taylor, who is writing a series of articles showing agricultural, industrial and horticultural actualities in this portion of the United States.

It is rumored that the fruit brokers of New York City got together recently had a midnight meeting down in the sub-way and decided that they were not going to pay fancy prices for Oregon and Washington apples. There was at least one commission man who did not attend this meeting, however, and he sneaked off to Hood River and bought 80,000 boxes.

Hon. John Barrett, Director of the International Bureau of American Republics at Washington, D. C., who was in attendance at the National Irrigation Congress last week in Albuquerque, will be present at the Trans-Mississippi Commercial Congress at San Francisco, then comes north for a visit to points in Oregon and Washington.

Both Fr day and Saturday nights' trains took good delegations of people from the Pacific Northwest to attend the conference of Coast commercial bodies to be held in San Francisco this week, and also to participate in the Trans-Mississippi Commercial Congress.

Getting a Franchise.

Geo. E. Sanders, assistant manager of the Albany office of the Home Telephone Co., returned this noon from Jefferson, where he had been to secure a franchise for the Co., which will probably be granted at the next meeting. As one of the councilmen is the manager of the other company at Jefferson, the situation is an interesting one.

Fell Down Stairs.

Mrs. Bridgeman, who resides with her daughter, Mrs. Weaver, of North Albany, this morning, was going down stairs, and was near the bottom when she fell, cutting quite a gash in one of her hands. As she is about 85 years of age it was not known how badly she was injured and Dr. Ellis was sent for. Fortunately no bones were broken.

S. AMERICA

As Seen Through the Stereopticon.

A large audience, probably four hundred people, attended the illustrated lecture of Rev. White, at the U. P. church last night. It was on the land of the Incas, a series of pictures showing the condition of things and the country from Panama to Cape Horn, down through Ecuador, Peru and Chili, on the Pacific, with some striking views, well explained, ending up with a scene of the natives at Terra del Fuego, the jumping off place in civilization as well as physically. The principal cities along the way are Lima in Peru and Valparaiso and Santiago in Chili, the latter being the largest South American city on the Pacific, with a population of 256,000.

The slides for the pictures are secured through the M. E. board, most of them made up from the pictures of amateurs, but they were good and full of interest and instruction.

Mrs. Bushnell taking a post-graduate course in the Chicago University, while Prof. Bushnell works on a book he is preparing, along sociological lines. He has made a specialty of model governments, during the past three years during the summer having charge of amateur city governments, for the instruction of children, at Washington, Cleveland and Indianapolis.

E. T. Allen, of Portland, is district forester, in charge of the 6th district, the Northwest country. He has been a ranger since 1898 and last year was state ranger of California. Recently he has been chief inspector of Oregon, Washington and Alaska.

A. A. Bender, of Tangent precinct, was in town today. His family have been having their share of bad luck. Mrs. Bender is just out of the hospital and a son has his head in a sling from the kick of an animal on the head, requiring the aid of an Albany surgeon.

BOURNE

WASHINGTON, Oct. 7.—Bourne has engaged a \$22 room apartment house in Stoneleigh court, the most expensive in Washington. He expects to entertain lavishly the coming season.

MISFITS,

Rippety roost, rippety roost, Boost, boost, boost, For Albany.

"Who will, who will? Bill will, Which Bill? Which Bill? Our Bill—Rah."

Mr. Puter continues to sputter.

When boosting don't forget the library.

Tom Lawson seems to have become a joke.

Several rookeries should become bricks.

It is easy to be on time if you get in the habit.

Singing needs heart service as well as preaching.

This is the best year in the history of Albany, altogether.

The new Elk's brick is said to be the prettiest in the valley.

Hearst has become a great mud thrower, a regular barker.

Foot ball has become a parlor game compared with the automobile.

Ostrich eggs are worth \$20 each. Unfortunately our crop is short.

Here's to the new Will-Stark-Brenner block. It fills a gap in Albany.

One or the silliest campaign camards is that Standard Oil is backing Bryan.

The foot ball is loose in the land; but it has wings compared with the automobile.

There are 9,500,000 telephones in the world, of which about a thousand are in Albany.

In union there is strength. The Pacific states have united and will face congress together.

The prohibitionists have selected the camel as their fighting animal. He drinks enough to last nine days.

Ten new policemen have been added to Portland's force. Perhaps it will be possible to see one occasionally now.

There is great rejoicing at Corvallis. Jameison and Pendargrass, star football men, have returned to the O. A. C. Now they will win! win! win!

No one ever heard of a booster pamphlet, no matter where published, in which it was not claimed that the finest climate in the world existed at the place.

It is declared, the telephone girl makes the best wife. She lets other people do the talking, she has patience, she is always busy, and is trained to the last minute.

The average increase of \$200 a month in the receipts at the post office. Is a good sign for Albany. The indications are that the total for this year will reach \$14,000.

After his trip to Oregon Mr. Harrison remarked: "We find ourselves in our better shape after the senseless money panic of last fall than might have been expected and the last year leaves us with hardly a scratch," which reminds us that the extension of the C. & E. is now in order.

Pretty good weather, but better weather would be some rain.

He says District Attorney McCourt has so many matters on hand he cannot give land fraud cases proper attention.
