The Summertims of Love.

(By William Steward Gordon.) Sweep gently o'er the chords dear,

Until I get the key For a little summer love song Just meant for you and me.

The dove still sings his lovenote E'en with their nestlings three, And this night-wind wooes the cedar, Then why should I not thee?

If plaintive little Philomel Can serenade alone, How could I keep from singing 'Mid treasures all my own?

The May of love was ravishing With bud and promises rife, But fruit and flowers mingle

In the summertime of life, Twas sweet in nuptial springtime To watch your soulful eyes Send back their loyelit flashes Like heralds from the skies.

But as now they gently linger On a little upturned face, I can read a deeper luster And a heavenlier grace.

And while you hold another hand, And a fairer brow caress. The little lulla bye you sing Is part for me I guess!

We're a little nest of love birds. For notes almost divine, From your downy-headed thrushes Are chiming in with mine.

And our home's a little corner Of the paradise above, For our love is growing warmer

In the summertime of love Albany, Oct. '08,

Enforcement of Law

It is not a good reputation for a city and county to be known as a place where law is not enforced well. The Brownsville Times says that seems to be Albany's reputation. something to recover the C. A. Smith holdings in Linn county. A young man has been here several days getting a complete list of property held by Smith, about . 44,400 acres in all.

It is claimed that Smith secured the land through a conspiracy with F. A. Kribs and S. A. D. Puter, Puter already having been in jail on account of some of the transactions. Now comes Puter to the aid of the government. He has just returned from Washington, where he went for special assistance for District Attorney McCourt, and it is said Judge Pugh may be sent. It is said Smith is also interested in other land in this county, which may be recovered.

The government dilly dallies so much there is no telling how it ends. SELECTING A NEW RANGE.

A range is not bought every day. A few dollars more or less in price does not determine whether a range is cheap or dear. You want the best; that is the very first consideration.

The lasting quality is the main thing. Other points to be considered are: How much fuel does it require? Is any part of it likely to give out, to crack, break on warp? Does it heat up the ki.chen, or is all the heat put to use in cooking and baking? Will it wear well?

The "QUICK MEAL" Factory is so well equipped with latest and most improved machiney, that "QUICK MEAL" Steel Ranges are made more perfect and economical than any other Range, and in selecting a "QUICK MEAL" you get the best for no more money than what you would have to pay for the ordinary, cheaply constructed range.
