A BRYAN MEETING.

Court Room Packed to Hear McAllister.

The circuit court room was packed last Saturday night upon the occasion of the speaking of Lawyer E. J. S. McAllister, of Portland, all the seats and extra seats around the sides being taken, and some had to sit on the registers.

Hon. W. R. Rilyeu presided. After a preliminary talk to the point by Senator M. A. Miller of the national committee Mr. McAllister got down to business and presented the goods. He showed how along every line the republicans had refused to carry out the Roosevelt policies, which the campaigners now want Taft elected to carry out. Fulton voted against all of them. The rate bill was defeated 8 to 1. In the national convention the popular election of Senators was knocked out 8 to 1 and Senator Fulton was one of those against it. The initiative and referendum went the same way. In Oklahoma Taft said no emphatically. The republicans revised the tariff by raising it 12 per cent. In 1896 they said they had plenty of money, now there is not enough. Then it was \$26 per capita, now \$37.

He offered a \$10 hat for a single Roosevelt policy advocated by Taft. The bank guaranty is all right, a splendid safety measure. The character of the two men was compared, Taft, an aristocrat who has been appointed to office, Bryan, a man of the people, of clean character standing for the highest citizenship. A fine speaker Mr. McAllister spoke eloquently and was applauded at every stage.

A Fire Alarm.

The fire bell rang this morning, the first time since the big fire opposite the post office. Mr. Bussard and some men were tarring the roof of the Bussard block, using an oil stove to heat the tar, when the kettle of tar boiled over and exploded the gasoline stove and setting fire to the top of the building, burning through to the wood work. Conrad Myer jr. went up with his fire extinguisher and did good work, soon having the flames out.

The fire company was not needed. It revealed one thing. A hose had been put on the cart wrong end to something that might have caused trouble.

Mr. Frank G. Hughson, of North Albany, and his brother, Jim, on a visit here from the middle east, have returned from the ocean, the latter's first sight of the Pacific, and he also had his first salmon experience. Mr. Hughson, according to the story, nearly going into the Bay, but he got the king of fish, the happiest man in Oregon.

On account of the crowded condition of the school rooms the Congregational church was turned into a school this morning, with Miss Oleta Cooley in charge of the first grade. Steel, of mountain climbing fame, as a commission to revise the geographical names of Oregon, and the committee will meet in Albany on Wednesday for the purpose of organization. FOOT BALL

Albany Boys Got Some Experience.

The Albany college foot ball team of course was defeated by a big score. This was expected. It was 35 to 0. The heavy men of the Multnomahs swept things. Besides Stott made a run on one occasion from the kick off completely across the field for a touch down. The stars for Albany were Dunlap and Ward. The Journal says of Ward: "He seems to be a very fast man, and he had Pilkington, who played against him on the defensive most of the time. Plik could hardly keep him from getting down on kicks. Ward also handled the long forward passes to advantage."

U. of O. defeated Willamette 15 to 0, but they had to play.

The O. A. C. club made a poor showing against The Dalles team, winning only by 10 to 0.

Albany College and Chemawa will play here Friday afternoon. Beginning at 2 o'clock there will be a game between the college second team and high school.

A Poem.

The following was written by a 12 year old Riverside girl: 'Tis naught, 'tis naught but a girlish mixture On how I tried to draw a picture. How I drew that frog! 'tis bad! 'tis bad! And O that snake! how sad! how sad! The grass and the trees, the water and ground Makes it look like something all mixed round.

And oh, that picture I now behold, 'Tisn't worth one penny of silver or gold. Those colors and paints I've long wished for, I've no desire for any more. Now since I've seen what I can draw, I'll throw away paint boxes and all.

I'll take that all back--what I said just now. For if I quit I will surely forget how. Now I'll pick up my dashing brush And go at drawing with a rush. I'll draw better pictures of frogs and snakes, And all pretty things such as frogs and snakes.

Looks serious when the president and all his cabinet get up into Ohio campaigning. And it is offensive official partisanship just as much as if they were small fry.

Cornett, his daughter, is the mother of Mrs. Bert Wilson, who has a baby a few months old. All were present recently at a big family gathering at the home of C. F. Bigbee, with 46 present. TWICE CURED OF SKIN TROUBLES

First Case a Rash Which Itched and Stung—Threatened Ten Years Later With Blood-Poison in Leg—But Both Times the Sufferer's

RELIANCE IN CUTICURA PROVED WELL-FOUNDED

"About twelve or fifteen years ago, while living in West Virginia, I had a breaking-out, and it itched and stung so badly that I could not have any peace because of it. I saw three doctors and they did not agree on what it was, so one of them gave me something that he called medicine, but I called it soda water. I might just as well have washed in rain-water. Then I got some Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent and began to get better right away. They cured me and I have not been bothered with the itching since, to amount to anything. About two years ago I had a gripe and pneumonia which left me with a pain in my side. Treatment ran it into my leg, which then swelled and began to break out. It got in pretty bad shape, so I went to a doctor. He was afraid it would turn to blood-poison. I used his medicine but it did no good. So I sent for another set of the Cuticura Remedies. I used them three times and cured the breaking-out on my leg. Now I won't be without Cuticura. J. F. Hennen, R. F. D. 3, Milan, Mo., May 13, 1907."

The High School Problem.

Editor Democrat:—I have before me a dozen inquiries concerning the high school problem. Please allow me to briefly answer through the Democrat. I believe in rural high schools and state aid by appropriation for the same, as is now done in many of our progressive states. As it is now proposed for the county to pay the bill I fear the towns would get the schools. The rural districts need them most, where the students have no opportunities, and where they would be home nights. The cost to the county would be about \$1 per \$1,000 assessment for each school established. The high school law was passed in 1899, and has not been used to any great extent. It does not seem to fill the demand of the grange, as local taxation pays the whole bill. EUGENE PALMER.
