ACTOPHONE COMING.

Special arrangements have been made by the manager of Wonderland for the appearance of the singing and talking Actophone, for two nights only Monday and Sunday matinee. So much has been heard about this wonderful moving picture device naturally every one is anxious to see the Actophone, combining the presentation of scenes, drama, opera, vaudeville, etc. both seeing and hearing the parts played.

It is the invention of a French genius Lumiere of Lyons, the originator of the microscope.
An Actophone Co. of San Francisco has secured the rights for Oregon for the exclusive privilege of using it, and this company will appear here at the time stated, in charge of Mr. W. H. Funk, who recently returned from the east installing 27 machines there.
One hears Caruso who receives \$10,000 per singing, and is it any wonder people are willing to stand, if unable to get seats.

At Harrisburg.

Cor. Guard:—
Messrs. May & Senders have sold 31,000 pounds of wool to Eastern buyers who are grading and baling it for shipment. Morris Senders, of Albany, is superintending the work. The compress being used makes bales weighing 550 pounds, and will fit in a car as closely as brick work could.

Samuel May, of Portland, came up Saturday. His long residence here and his intimate connection with our social, fraternal and business life during that time always renders the event of his arrival more of a happy home coming than that of a mere visitor.
