

TEN THOUSAND DOLLARS

College Asks Citizens for This Sum.

Today a most determined canvass of the city is being made to raise the sum of \$10,000 to become a portion of a fund of \$50,000 that Albany college now asks for endowment. The entire city has been mapped out and committees assigned the work of seeing each and every one within the boundaries of the district allotted them.

This evening a celebration has been planned and the Albany band will be out to furnish music for the occasion. This is intended for the monster celebration of the college year with the announcement of \$10,000 having been subscribed, the students and friends of Albany will make the welkin ring with their enthusiastic shouts and college yells. It is expected that citizens with out an exception will throng the streets to hear the news and rejoice with the workers and students.

For the Council.

The petition of George W. Taylor of Ohling & Taylor has been signed and filed with the City Recorder placing him on the ticket as an independent candidate for councilman. In the Third Ward it has been said that R. B. Snell will be a candidate for the position.

THURSDAY.

ALCO CLUB MEETING.

Ladies Given Privilege of Club.

The annual meeting of the Alco Club was held last evening and over one hundred members of the club were in attendance and took part in the business meeting and partook of the buffet lunch as furnished by the Trustees. After hearing the reports of the officers and various committees the work of the election of officers was taken up and resulted so happily as to make the outcome almost unanimous. Judge H. H. Hewitt was elected President; George W. Taylor, Vice President; Geo. E. Sanders, Secretary; Harry B. Cusick, Treasurer. These were all elected by acclamation. The selection of a board of trustees of five members was interesting, due to the fact that somewhat over a dozen nominations were made. The final result of the balloting showed that G. A. Flood, L. W. Merrill, Charles Stewart, J. C. Irvine and D. O. Woodworth, had been successful and elected for the coming year.

A resolution was read and adopted allowing the ladies the full privileges of the club on the first and third Wednesdays of each month.

The reports of the secretary and Treasurer showed that good work has been done and the retiring board certainly is to be congratulated on the successful manner in which the gymnasium project has been handled.

Smelter Project.

Paul T. Gadsden and Arthur Langguth, of Portland, appeared before the Commercial Club last evening and explained their plan of establishing a smelter in the Santiam Mining District and asked nothing more than an endorsement of their work and undertaking. Mr. Gadsden represents the Wilson-Gadsden Co., of Portland, who are establishing and building smelters in the principal mining centers of the northwest and the owners of mining property generally enter into a twelve year contract to furnish them ore from their holdings. He is a noted metallurgist, smelter and mining engineer, and delivered a most instructive and interesting lecture before the meeting last evening. The management and members of the club were favorably impressed with the project and appointed a committee of five to investigate the mining properties and report at the next regular meeting.

A fine display of ores taken from the mines of the Gold Creek Mining and Milling Co. has been on display today at the store of M. Senders & Company. It runs principally to silver, copper and gold.

The committee consists of Geo. W. Taylor, F. J. Miller, F. M. French, Dr. W. H. Davis and Bury E. Dasent.

Married at Rose Lodge, Siletz

A decidedly romantic wedding took place on Nov. 11, when James McKenzie was united in marriage to Miss Etta Carter, of Halsey, in the little log cabin in the reservation. They avoided their many Albany friends by leaving here quietly by Sheridan. From there they went by way of Butler and Grand Ronde Reservation 36 miles by mule team to Salmon river, from there travelling 12 miles on horseback to the homestead of the groom, where they were met by friends. Rev. S. E. Meminger, now a homesteader on the Siletz, performed the ceremony immediately after their arrival. A fine dinner was served.

The bride is well known in Albany, having been a teacher in the public schools of this city for three years. She is a graduate of the O. A. C. The groom is a Portland man. Being intelligent and energetic, for the past year and over has been carving a home out of the wilderness.

A host of friends unite in wishing them success and good fortune. Those present were: Rev. and Mrs. S. E. Meminger, Mr. and Mrs. R. E. Darnell, Alice Finzer, W. B. Lacy and Frank Finzer.

News From Albany's Six Early Trains.

The yards of the Corvallis & Eastern system were completely filled this morning with heavily laden cars of lumber. The work of the line to Detroit principally consists of heavy hauls of lumber and logs.

With the present facilities of the Southern Pacific Company and the torn up condition of the yards, the handling of the immense freight business is no easy task.

The location of the freight depot when the yard changes are completed is altogether a matter of conjecture.

E. P. Sommers, of Jackson and Sommers Cigar Company, left on the morning train for Corvallis.

Henry Lyons was a passenger for points northward on the morning local.

The baggage men were rushed with traffic and found the work of handling it all the more difficult on account of soft condition of the sand used to fill in around the depot.

Albany Girl Nurse to Noted Prosecutor.

Miss Margaret Marks, a daughter of James Marks of this city, is attending Francis J. Heney in the San Francisco Hospital. Considering the fame of the man and his wonderful career, the position of attending him is one of responsibility and call for extraordinary ability. A fine tribute to one of Albany's former residents.

INNOCENCE ABROAD

A Few Paragraphs from the Democrat Man.

Amidst the Sage Brush, Tuesday morning.—I thought I got up at my regular time, 6 o'clock; but, instead of being 6 it was 7, at Huntington the time went ahead an hour. I spent my first night in a Pullman sleeper. No one suspected I was as green as all that. It is easy to sleep anywhere if you can turn the key to your brain. I am getting used to the high priced style of the diners. Have gotten the business down to a science and can get a meal for 50 cents, a sign of genius. This morning buttered toast, cream and flakes, and cocoa cost 45 cents, and the other five cents the waiter kept as a tip. Was surprised that nothing was charged for the finger bowl service.

Five or six more passengers during the evening and night, including a baby, is making things more lively.

At Pendleton I met Ex-Governor Gear, who had read that 28-year vacationless item and was prepared to write a humorous item on the subject.

At Nampa the Halls left the train for Silver City, 6600 feet above the ocean, with snow almost any time. Think of living that high.

Passed Bliss and Gooding in the land of government irrigation. Some signs are suggestive: "State land for sale at \$1.50 per acre." Would hate to risk 10% cents from the appearance of the sample. Another: "100,000 acres irrigated land of three crops. Cary Act Land." Give me one acre of Willamette valley land for a dozen up here, in fact for a section if I had to stand the dust.

Soshone, 3970 feet above salt water, presented a respectable appearance. Gooding was no frontier. A ride through this country makes the Willamette valley seem like a paradise.

A Spokane real estate man and boomer, with some hot house strawberries, has been making things lively in Harog style. Strawberries in November out here, I suggested, were nothing down in the Willamette valley. He is going to Denver to advertise the big apple fair. FRED PIKE NUTTING.

TANGENT.

Mr. Geo H. Moss has finished his fall work and is now taking a trip to Seattle, Spokane and other places taking a look at the country.

Miss Sylvia Canavan has gone to Salem to spend the winter with her aunt, Mrs. Sarah Gaubrecht.

L. D. Simons has moved with his family to his father's farm near Sodaville, where he will try farming for awhile.

Lewis Marsters is now postmaster at Tangent in place of L. D. Simons, who lately resigned.

L. B. Marsters has leased the building and bought the stock of goods of L. D. Simons, and hereafter he will be one of Tangent's prosperous merchants.

R. J. Moses has completed his new building and moved his stock of merchandise into it, where he now has a fine display of goods.

William Slatte recently from Southern Oregon has moved to Tangent to reside.

Ambrose Beard of Albany has bought the house and two lots just west of the warehouse where his sister Mrs. Ellen Ballard and family will make their future home.

Farmers are well along with their work and a large acreage of fall grain has been sown; consisting of wheat, oats, vetches and cheat.

A Thanksgiving dinner will be served by the ladies of the two churches in Tangent at the Grange hall, to which all are cordially invited, the proceeds of the dinner to be used for purchasing song books.

The rains in October started the grass and grain to growing and now the pastures and fields look green and inviting.

Indications now are that the winter will soon be here, and from appearances farmers are nearer ready for the wet weather than they have been at this time of the year for a long time, as they have their seedling about done and most of the heavy hauling is over, so the roads will be left in good condition for winter.

Eastern Oregon Residents Want Our Fruit.

George B. Whitcomb of the Sweet Home country, has made a number of trips across the mountains this fall by way of the Willamette Valley Mountain Wagon Road, loaded with Linn county apples and found that the demand for this fruit in those sections is unlimited and at no time during these trips was he able to reach further than Bend with fruit. Furthermore these apples were sold at the rate of five cents per pound.

This is an indication of the possibilities that will open to the valley and Linn county with the completion of a line via Detroit into eastern Oregon. The residents of that section are hungering for our horticultural products and gladly pay extraordinary prices for them. It is a long way across the Cascades, but Mr. Whitcomb thinks it pays and will watch this field and endeavor to supply in a measure the demand of the residents of Siletz, Bend and other intermediate points with the luscious apple of the valley.

Why not undertake the work of promoting the construction of the Corvallis & Eastern of our own accord and thus bring to our city and valley some of the wealth in trade that is rightly due us. Everyone should be interested in this matter. The people of Eastern Oregon are anxious and waiting for us to open the door to them for trade.

Mrs. J. B. McCoy of Los Angeles, California, will pass through Albany tomorrow with the remains of her mother, going to Salem where the funeral will be held.

STUDENT'S

Make Merry at the College Last Night.

A monster demonstration and students' rally was held last evening at the college. The band was present and furnished music of a lively character. Theyel of the students were given in most excellent style and shows wonderful enthusiasm. After tearing their throats to shreds trying to drown out the band and other noises, the assembly was called to order and speeches heard from members of the alumni and former students of the institution. Willard L. Marks, Mrs. Hamilton, Dr. Geselbracht, Geo. A. Prichard, Hon. Frank J. Miller, David Torbet, Miss Blackwell and F. C. Stellmacher were heard in addresses, Miss Blackwell giving a most interesting reading portraying the adventures of a sophomore.

It was the liveliest and most interesting student rally held in the college chapel this year and tonight it is expected that the students will celebrate a foot ball victory and the raising of the \$10,000.

Young Ladies to Perfect Organization.

The matter of organizing a ladies debating league in the various colleges and universities of Oregon is being promoted and gives promise of success. The matter of holding debates between the smaller schools of the state was tried last year by a number of young ladies from the minor colleges and met with decided success. This has induced them to take up the work of increasing the size of the league and to build it into a permanent organization. Miss Rhoda Stalnaker of the college has been authorized to take up the matter with the schools and colleges of the state and perfect arrangements for a first meeting when the organization can be perfected.

It is proposed to start the league with the following schools as members. University of Oregon, Oregon Agricultural college, Willamette University, Pacific University, McMinnville and Albany College.

The second social event of Circle City was a dancing party given at the Circle City hop house Friday night, Nov. 13th. GOOD ROADS.

Commissioner Butler has Something to Say.

ALBANY, Nov. 20, 1908.
Editor of Democrat:

In yesterday's Democrat you stated that some "tax payers" objected to the County Court defraying the expense of the Good Roads meeting Dec. 2d.

I was not aware that the Court anticipated paying the expense.

I suppose it would be satisfactory to those tax payers for the Court to contribute to the Apple Fair and the publishing of literature.

Now, if Albany objects to holding a Good Roads meeting we can get entertained at Seilo or Brownsville. Lebanon has asked us to hold a meeting there. I am enthusiastic on the "Good Roads" question. If you don't get good roads, how do you expect to market your apples?

If you want to meet Mr. Taxpayer, I will meet you any time or place and discuss the "Good Roads" question. Please sign your name.
