MONDAY.

70 TODAY

Oregon's Oldest Native White Man

Mr. Cyrus H. Walker is 70 years of age today, having reached his three score and ten years. The remarkable part of it is that he has spent the seventy years in Oregon, having been born in this state Dec. 7, 1838 at the site of the old Whitman mission.

Following are some facts in connection with Mr. Walker's life:

His parents crossed the plains on horseback in 1838, coming out as missionaries to the Indians, spending the first winter at Dr. Whitman's mission station below the present Walla Walla. There Mr. Walker was born. At that time Oregon comprised what is now our state and the states of Idaho and Washington.

The committee appointed by the Albany Commercial Club met Saturday evening at the court house and discussed good roads with the court, asking for an appropriation of 2 mills, double the present appropriation. Some of the present appropriators, but it is thought best not to increase the levy to fast. Under the present law the appropriations are apportioned according to the number of miles of road. Under it some of the mountain districts with big timber assessments and only a few miles of road are getting as high as \$100 a mile, about as much as they can handle, a fact which suggests regulation.

HEMORRHOIDS SORES AND ECZEMA

Accompanied by Terrible Itching—A Complicated and Most Distressing Case—Well-known Remedies Failed to Cure—Doctor Thought an Operation Necessary—Then

CUTICURA PROVED ITS WONDERFUL EFFICACY

"I am now eighty years old and one morning, three years ago, I was taken with a hard pain in my right side. In two days I had an attack of piles (hemorrhoids), bleeding and protruding. The doctor gave me some medicine and an ointment for them which helped me some but I had to keep using them all the time. Then I changed to the P—remedy; but if I did not use it every day, I would get worse. The doctor said the only help for me was to go to a hospital and be operated on. At this time, about a year ago, I went to using the S—remedy. I tried them for four or five months but did not get much help for my piles. During this time sores would come on a fleshy part of my body. They bothered me all the time. I would get one healed and another would come. These sores changed to eczema, accompanied by a terrible itching. It seemed as if I could not keep my hands from tearing my flesh. This and the pile trouble brought on an inflamed condition. Then I got the Cuticura Remedies. I washed the affected parts with Cuticura Soap and warm water in the morning, and at night, then used Cuticura Ointment on the irritated surfaces and injected a quantity of Cuticura Ointment with a Cuticura Suppository Syringe. I also took Cuticura Pills three times a day. It took a month of this treatment to get me in a fairly healthy state and then I treated myself once a day for three months and, after that, once or twice a week. It is fortunate that I used Cuticura. The treatments I had tried took a lot of money that I would have saved by using Cuticura Remedies sooner, but I am wiser now. I am supplied with a full set of the Cuticura Remedies and would not feel safe without them. J. H. Henderson, Hopkinton, St. Lawrence Co., N. Y., Apr. 29, 1907."
