Deafness Cannot be Cured

beafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by the constitutional remedies. Deafness is caused by an inflamed condition of the mucous liming of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed torever; nine cases out of ten are caused by Catarrh, which isnothing nut an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (cause by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.
