### It is an Important Move.

The paving of the streets of Albany has begun, that is, the first formal steps have been taken. This is one of the most important undertakings that have occurred in Albany. There have been others, but this one will mean much for Albany as a city. Once started it will mean that pavement will prevail here as an institution, gradually reaching out over the city. As in all things the city should be temperate in this, not going to extremes, with any wild desire of being the most paved city of its size in the world, but pegging away, a little each year, according to the means of the city and our citizens, in such a way as not to cause any hardship upon either. Financially it is a big thing, also, for it is said that it always increases the value of property much more than the cost.

The DEMOCRAT hopes to see Albany proceed sensibly in this as in other affairs, along clean lines, without any taint, and free from charges of graft, so common in the advancement of the improvements of a city. This will undoubtedly be the program. Altogether Albany is having a good reputation.

### A Little Athletic Talk.

The Alco Club of this city is promoting athletics along liberal lines and in what appears to be a sane way. There is sane and insane athletics, by the way. Sane athletics are a splendid thing, doing much good. Insane athletics, the going to extremes, does more harm than good. The Alco system seems to be all right, and promises to be a good thing. The effort is going to be to keep this department clean and unselfish. Though the club is a private institution and it costs a regular fee to enjoy the privileges the management is permitting classes of students to enjoy the privileges of the splendid gymnasium, by paying only the fee for instruction, a very low price for so much, giving the students of the city a gymnasium as much as if a part of the school system of the city, with an experienced and careful instructor in charge of the work. The DEMOCRAT takes pleasure in commending the present plan.

### Use the Gallows.

The gallows down at the state penitentiary needs to be used. It has been idle too much. Two hangings are reported out of ninety-six cases. That is a poor example of a protection against crime. Murder should be punished. If the law provides for hanging, then hang; if for life imprisonment, then imprison for life; but do something. The public is weary of guilty men going free over technicalities and puerile sympathy for some one interested. Get the gallows to dropping where it is needed. It is not a personal matter, it is one of example in the interest of better conditions and justice.

## THE NEXT

In "Why Girls Leave Home" which will be seen at Albany, Jan. 6, is promised a play of exceptional merit. The story is a purely wholesome one, consistent and coherent, and in this alone has it won its remarkable success. The story is of a wilful girl, beguiled into questionable pleasures by a man of the world. A hot headed older brother, a sweetheart, a sister and mother, who do not understand the girl, take part and complicate the situation by misunderstandings. There is a great deal of emotional work as well as many exciting scenes while the comedy interspersed throughout the action is of the side splitting sort. The play is mounted on an elaborate scale and an admirable cast has been selected to interpret the several characters.

IT'S LIKE THIS—Johnson's Best Flour is the best because it is milled from the best wheat in scrupulously clean mills. Its use insures delicious bread, cake and pastry.
