About the Snow

A little winter weather is nothing to look savage about. During the past twenty years the Willamette Valley has hardly had enough of the stuff to speak about. Many winters there has been none at all to step upon. Gene-rally there has been only a very little, rally there has been only a very little, passing off in an hour or two. With it there has been little cold weather. Altogether the weather of this valley is remarkable, and will stand inspection. The DEMOCRAT is no false booster. It seeks to give the facts. Some one said: "You won't mention about this snow in the paper will you." Certainly it will be mentioned like other news. As a matter of fact the snow is probably a good thing for the country.

Electric Lines.

The Eugene papers are doing some boosting for securing an electric road up the valley as far as that city. It is certainly a good thing to boost. It is being learned more and more that these roads are splendid developers, and that they mean much for a section of country, hence the general desire to secure them. Along an electric line one always sees fine homes erected, pretty garden spots, good farms, and they bring business to a town, offering communication ten or fifteen times a day. Albany wants a line up the valley, and is anxiously waiting its coming.

Eugene is now laboring with the proposition for having a couple of tele-

Why Girls Leave Home.

J. S. Cooper came over from Inde-pendence today on Albany business. Mrs. O. A. Beam is lying seriously ill at the home of her son Owen Beam. It is said to have many features that other productions of melodrama have

other productions of melodrama have not, notably, not a revolver from one end of the book to the other, will be presented tonight.

Mr. Summerfield, the author, is said to be congratulated in going beyond the beaten paths and fashioning a melodrama that was one of the few successes of last season. The drama points a moral which could be drawn in numerous instances in modern life. It is a story of evil associates and a longing for gay life, yet it has a heroine with innocent intentions. Many exciting bits of experiences, make the story extremely fascinating.
