Reaching the Spot

To Can Be Done, So Scores of Albany Citizens Say.

To cure an aching back, The pains of rheumatism, The tired-out feelings, You must reach the spot—get at the cause.

In most cases 'tis the kidneys. Loann's Kidney Pills are for the kidneys.

James Greehalgh, formerly of 707 E. Fifth St. Albany, Ore., says: "Early in the winter I had an attack of sciatic rheumatism and as I had always been a healthy man it seemed very severe. The pain was mostly in my kidneys and often extended into my limbs. I thought that treating the kidneys would be the best method to get relief and as Loann's Kidney Pills were highly recommended, I obtained a supply. The pains began to lessen soon after I commenced the use of this remedy and I procured a second box. I had only started its use when the last trace of the trouble disappeared and I gladly say that I have been free from it since."

RESOLUTIONS

Passed by the Indian War Veterans.

One by one our comrades are leaving us, called away by death.

We may not mention them all but respect to our leaders prompts us to specially name: Past Captain Jason Wheeler who died Dec. 3, 1907, and Captain Samuel R. Claypool whose death took place Dec. 6, 1908. Of them, and others, it can well be said, they fought the good fight, they kept the faith, they finished their course and are surely rewarded with the crown of righteousness promised to the faithful, therefore Resolved, by Camp No. 17, Indian War Veterans, in session at Albany this 20th day of March 1909, that we greatly miss all our departed comrades and to the end of our days will cherish their memory, and further hereby tender to the sorrowing bereaved ones who mourn their departure, our sincere sympathy.

Resolved, that we hereby tender to U. S. Senator Geo. E. Chamberlain our hearty thanks for introducing into congress a bill to increase the pensions of Indian War Veterans to \$16.00 per month, and hope he, with the help of all others of the Oregon delegation, will be successful in getting the same enacted into a law; and that a copy of this resolution be forwarded to Senator Chamberlain by the secretary of this Camp.

LIKED ALBANY.

To the EDITOR of the DEMOCRAT: I am glad to have been in your nice little city last week and must say that I was most agreeably surprised at the prosperity, advancement, and general business push that I noted in the few hours which I spent there. A business man always feels glad when he does business and I am glad to state that I closed a \$2,000.00 contract with the First National Bank of your city, which puts them in possession of a new manganese safe of the latest pattern and of the most perfected type of burglar protection, and the mere fact that this pattern has been in actual use for ten years and has a record of never having been burglarized will indicate to the customers of this bank that they are getting a protection for their funds that is surpassed by none and equaled by only those people who use this particular safe.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by the constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which nothing out an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (cause by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. **F. J. CHENEY & CO., Toledo, O.** Sold by Druggists. 75c. Take Hall's Family Pills for constipation.

Fire-Box "Air-Leaks" Waste Fuel

If it takes you about an hour to get up a cooking fire—And it afterwards roars away so strongly that you can't shut it off—It's probably due to "air leaks" at the flues surrounding your oven and into the fire-box. For in ordinary steel and cast iron ranges there are lots of places where the outside air gets in—perhaps through the seams between the oven and range body or around the back flue which is bolted on.

Perhaps through the slide damper at the left side of the range. Usually this is a cast plate, bolted and puttied. As soon as the bolts work loose, through expansion and contraction of the metal, a crevice is formed to let in the air.

Now all these openings waste your fuel—it's like the Chinese saying:—"Burning your house down to roast a pig."

The range that has no "air leaks" is the Monarch. Around every opening—Oven Door, Feed Door and Ash Door, are Malleable Iron frames, riveted to the range body. Cast iron frames must be bolted to steel, but Malleable Iron can be cold-riveted.

This riveting insures practically air-tight joints, which never spread or open up, no matter how hot the fire.

The fire-box linings of the Monarch are extra heavy—the back wall is made in four pieces to provide for heat expansion.

The Duplex Draft gives you perfect control of the fire—there are two damper doors, one in each end of the fire-box.

You can open them just to the degree desired, to make your fire slow or fast.

A Monarch Range is the best investment an economical woman can make, for it burns less fuel, is more durable, and "stays-satisfied" as long as it is in use.
