MRS. NICHOLS, FIRST STREET Special Easter Offering

This week we are giving 1-4 off on everything in our store trimmed and street hats, flowers and all kinds of millinery trimming with our first I will low the discount means a big saving to you 1-4 off means a \$5.00 at \$3.75, \$8.00. \$6.00, \$18.00, \$13.00 and so on.

Is a distinction of quality, not of price. Only in a stang sense does it mean that which so many buyers take it to mean actually.

In buying groceries we make our selections for what they actually are—not because the price would make them seem what they are not. Everything in this store is cheap—cheap as designating high quality and fittingly low_price.

Many merchants can supply you with goods cheaper, in the slang sense but not cheaper in actual worth. We can make this statement with a good deal of emphasis, because we know that we are adding a smaller margin of profit to the actual cost of the goods than is the custom among other grocers.
