

It Is Suggestive

The refusal of the ten republican Senators to vote for the Aldrich-Payne tariff bill when it was placed on passage in the Senate should, in the estimation of the democrats in Congress, prove a warning to the dominant party.

The Tariff Bill.

Many republicans, including some who voted for the tariff bill, hope and expect that great improvement will be worked in the bill in conference, not as the result of any special disposition on the part of the conferees to revise the tariff downwards but because of the avowed intention of the President to exert his powerful influence to secure the acceptance by the Senate of all the House reductions and by the House of all the Senate reductions.

A Practical Educator.

Eugene Register: Prof. E. H. McAllister, who with Prof. W. Gifford Nash and their families, with others are camped near Blue River on the McKenzie, has devised a novel method of raising water to their camp.

Making Fun of the Deschutes Route.

The following from the Prineville Review on the proposed Deschutes road is full of points: A Grass Valley dispatch says: "Two brothers, railroad contractors, of Spokane, have established headquarters at this place and have rented six office rooms."

"They have also established camp on the top of the Deschutes hill and have 150 men at work building a wagon road down the hill so they can establish camp on the river."

"The estimated cost of the wagon road is \$7000." This is about the best thing we have seen lately about the Deschutes Railroad project.

It is generally the opinion around here that Mr. O'Brien's latest move is nothing more or less than a gigantic bluff, made to secure the Deschutes canyon against a rival that does not exist, and that Crook county will have no railroad from that direction for at least ten years.

Portland showed Seattle a point or two. Not so sleepy after all.

Frenzied Thoughts.

Mr. Gould as "Cupid" seems to have failed to live up to the part.

When the cry, "stop, thief" is raised, the sugar trust runs with the crowd. However, it has mighty powerful friends in Congress.

It is some comfort to reflect that the New York man who claims to be able to talk 65,000 words an hour has no ambition to run for the Presidency.

The invasion of Mexico by Harriman with a \$75,000,000 railroad won't make Mexico mad.

The question, "What is whiskey?" is not interesting the so-called "dry" States so much as the more intimate and vital question, "What is near-beer?"

E. H. Harriman cannot be called one of the "idle rich". He works harder than his own locomotives.

APPLE FAIR.

Getting Ready for the Big Event.

The general committee met at the rooms of the Albany Commercial Club last night and organized for the fair, which will be held some time in October, and will be the great event of the year.

E. W. Cooper was elected chairman and W. A. Eastburn secretary and treasurer.

The following committees were appointed: Finance.—H. Bryant, E. W. Cooper, F. M. French.

Premium list.—J. A. Howard, C. H. Stewart, W. A. Eastburn.

Wallace R. Struble was added to the general committee and will have charge of the publicity work of the fair.

It has been suggested that the new garage of J. L. Irvine would be a dandy place for a fair.

BUSY.

Down at the new high school grounds. A new house has been built for the workmen and the workmen and the teams are hustling dirt. The pressed brick is to come from Molalla.

The Warren people at the east end of their new contract with the Willamette Valley people hustling to get out of their way further west.

At the Masonic temple, where Andrew Skarr is painting the building. One of Albany's oldest painters has been depended upon for a first-class job.

A new sign on Ferry street is Conservatory of Music. It is in the Rhodes Block, and indicates music in the air.

Ed Umphrey is putting a cement approach to the Eastburn store, with its new and modern front.

A crew of men tearing down the tabernacle, considerable of a job by the way. Some of the nails were evidently put in to stay.

An Old Timer.

The Democrat today through the courtesy of Mr. Alfred Parsons, has added an old-time picture to its art gallery, one of the officers of the fire department and the heads of the different companies, at the time, about twenty-five years ago. Those in it are: Geo. E. Fish, Arch Monteith, Jos. Webber, Jas. Hall, Billy Miller, in the first row, Hiram Lampman, J. N. Hoffman, Mox Baumgart, O. H. Irvine, Virgil Parker and F. L. Thompson, in the second, in their order.

Returned from Washington.

Chub Harris has returned from a telephone trip to Aberdeen, Chehalis, Centralia, and other Washington towns. Chub always sees things, and run upon numerous Albany people in his travels: George Wyatt, in the laundry business at Centralia, was happy, with a girl at his house, the prettiest thing ever breathed of Albany people: Chas. Welch in charge of the electric light plant, with Marvin Turner, Miss Welch and Mr. King assisting in the work. Fred Ficklin is also there, clerking in a cigar store.

K. of P. Installation.

The new officers of the Laurel Lodge Knights of Pythias, No. 7, were installed last night, as follows: Geo. H. Fiddleman C. C., W. S. Risley vice C. C., Geo. B. Cummings prelate, J. W. Miller M. of W., L. M. Carl K. of R. & S., M. T. Freeman M. of A., N. D. Conn L. G., Julius Voss O. G. Refreshments were served in a social session enjoyed.

CIRCUIT COURT

Judge Burnett in Both Departments.

Judge G. H. Burnett convened department number one of the circuit court this afternoon and disposed of the following cases:

In Oregon agt. E. C. Peery, charged with violation of the local option law a verdict of guilty was rendered, and the defendant was given the lowest fine, \$50, which was paid. The defendant sold liquor on a prescription filled by Dr. Sanders, a dentist, which the court held was not within the statute, a dentist is not being a physician. Weatherford agt. O. A. C. continued. Robertson agt. the C. & E. for \$1,000 damages, continued. Adjudged for term.

Department two was called, and a few cases called up by special request. Carrie B. Allen agt. Robert Allen. This was the case where the defendant required the plaintiff to work in men's clothes, and according to her testimony was a brute for a fact. She married him at Albany after knowing him only two months, and she declared he had an undue influence over her. It was taken up or adjourned. Judge Burnett having to be in Salem to attend court this afternoon he adjourned court until July 30, when Judge Galloway will be here.

GOOD STOCK.

Some Fine Jerseys Brought to Albany.

A car load of imported and native Jerseys from the Smith Jersey Farm, of Coreoran, California, reached Albany this morning in charge of Mr. Geo. A. Smith, the proprietor, and were distributed from here, as follows: Dr. Jos. Smith, a heifer, \$125; J. C. Brown of Shedd, two heifers, \$250; Walter J. Domes, a heifer from the Jersey island, which will be shown at Seattle, \$150; J. P. C. Henderson, Corvallis, three heifers \$375; M. E. Miller, Halsey, 2 heifers \$250; Walter Davis, Shedd, 2 heifers \$350; T. J. Stevenson, Halsey, one heifer, \$125; E. L. Davis, Corvallis, a \$125 heifer. These cows will be a fine addition to the Jersey stock of this part of the valley.

Mr. Smith has the largest herd of Jerseys on the coast, and as well the largest breeding farm. Besides cattle he also deals in horses of the blooded kind. He is very much pleased with the appearance of things here for a dairying county, with great possibilities ahead. Mr. Smith will have a \$50,000 display of stock at the state fair at Salem and at Seattle.

KNOCKERS

Who Lie About Their Neighbors.

Oregon cities and counties instead of knocking each other should help boost, and with reason, particularly the people of this valley, much alike all through it, the finest place in the world anywhere in it; and yet there is abroad a spirit of knock that is infamous. Some people here this week said that with an eye and Salem the real estate men sold them the land around Albany worth cultivating, that was the fertile soil; and we have seen the knocking in the world, our people are knocking for it. The men appeared to meet some one on the cars who told them the truth. Another man who was at Medford was told that around Albany is the most unhealthy section to be found, with low miasmatic land. The Liars. It is doubtful if there is a more healthy section in the world. The Linn county death rate is the lowest in Oregon, for the first six months of this year being approximately 5 in 1,000. Contagious diseases never occur here so as to spread. The death rate at Medford is about double that of Albany. A newcomer just from there had to leave that city on account of the poor water. This isn't a knock but a fact.

TANGENT.

Rev. Geo. M. Gardiner attended the Epworth League meeting at Seattle last week; he reported a large attendance and a good time, he also took in the fair for a few days.

Mrs. Cora White of Wasco is visiting at the home of her father W. O. Hudson.

A. H. Blevins and Ralph Driver expect to start for Spo. one next Sunday.

Ed Moss and his sister, Miss Dora, started to Seattle last Saturday to visit the fair for a few days.

Mrs. Mabel Wilkins of MSH City, is visiting her mother Mrs. Mary Tisdale in Tangent.

Miss Clara Blevins who has been away for the last three years in Chicago and other places is expected home in a few days.

Charles Grill was a bad runaway with his team and quite badly hurt, the team went as far as Tangent and took up against a tree where they stopped.

W. M. Ellingsworth and family former residents of this county but late of North Yakima have returned here to visit relatives and friends.

J. E. Jenks long a resident of Tangent has rented his house and moved to his farm where he expects to make his future home.

Most of the farmers here have had in; it was not so badly damaged by the rain as was expected.

Fall grain is ripening very fast, and binders have already started.

The spring grain has made a rapid growth since the late rain; and fields which looked very thin and light will yield a fair crop.

It is reported that the Booth-Kelly Lumber Company of Eugene, has secured an order for 4000 ears of Oregon fir for construction of railway cars for the Harriman-railway systems, the order aggregating about \$750,000.

There are hopes for sale yet. The city council has refused to grant a license to the famous Old Bill Anderson saloon.

Albany people are proud of Albany stores.

MISFITS.

The people have gone land crazy.

Stand by Albany men and institutions.

Now for finishing up the tariff muddle.

The Democrat never quarrels with anyone.

A boost for Albany men is a boost for Albany.

Don't be hit at everything in the newspapers.

Albany's new directory is the most read book in the city to-day.

When you think about it Heney has done a good deal for the country.

It is easy to find mistakes if one is looking for them, whatever it is in.

Men may want to do right, but many make a mighty poor stagger at it.

Buy your dress suits of Albany merchants, not of peddlers or at Portland.

Hold your breath, the price of oil has been reduced at headquarters, at least on paper.

Harriman is the most popular man at an Austrian watering place. Depend on Ed's getting there.

Some Albany people who will keep their sprinklers running all the time are inviting the meter system, and it will come.

Two boys were killed at Lead, S. Dak. yesterday while watching a base ball game, by lightning. Eight others were seriously hurt.

The Portland Journal says drink was the cause of the downfall of Jas. A. Finch. Well it gets all of them if you give it any chance at all.

President Taft has agreed to stop at Salem, the capital. Well, he had better stop at Albany at least long enough for the hub to have a look at him.

An eastern Episcopal minister who invited the men to smoke during services has been obliged to shut down shop. He was a fool game as well as a losing one.

Oscar Parsons upon paying a \$200 fine and serving thirty days in jail for running a blind pig in Lane county, said he was done for that kind of business for good. The time for being done is before doing it.

The Prineville Review says the Deschutes-railroad is a bluff game, that a few miles of grading will be done and then proceedings stopped for ten years or more, that Harriman simply wants to hold the right of way.

As the tariff has become a local matter practically, in the interest of the newspaper business congress is hereby notified to keep the duty on pulp and print paper down where recommended by the select committee, or there will be something doing. If they don't 20,000 papers will speak out.

Any statement that Albany's street car moves but once in an hour is not accurate. Corvallisites in the city Saturday saw it move twice in an hour.—Cozyalls Gazette. That beats Corvallis whose principal vehicle is wind. As a matter of fact the Albany street car moves every fifteen minutes. A brand new one is almost here. Come over and see it.
