THIS MORNING

News from Albany's Six Early Trains.

Mr. and Mrs. O. M. Barton and two of their children, the youngest son and daughter, left for Seattle to attend the fair. Mr. Barton recently returned from Los Angeles, and is seeing things. One of the things that struck him down in California were the new gasoline cars that are to be brought up here later for use on the road, practically a street car between stations.

Mr. G. B. Milloy, of Scappoose, on the Columbia, former Albany newspaper man, now a Scappoose merchant, went up to Mill City, on a business trip having been in business there at one time.

Mrs. Ezra Douglas, of Portland, returned home accompanied by Miss Florence Eastburn and youngest brother who will visit at the home of their grandfather, J. R. Douglas.

Van Riley left on a trip to Detroit. Mrs. Fred Dawson went to Newport. Jake Blaser returned to Mill City from an Albany business trip.

Thos. Froman left on a trip to Portland. Lawyer Barney Martin came down from Brownsville. Barney is now in the midst of a scrap with the city of Brownsville and there promises to be something doing.

Has Seen the World.

Mrs. Lizzie Doughty and Mrs. Conn Delaney are visiting at the home of the father of the former, Mr. Henry Langmack, of R. F. D. 5. They are from Edginton, Minn. Mr. Langmack's former home. Mr. Langmack by the way has had quite an experience seeing the world and trying different countries finally to settle down in the garden spot of the world. He resided 24 years in Holstein, Germany, 45 years in the United States, ten being in Minnesota, three in Oregon and the rest in Indiana and other states, and the other five years were passed in New Zealand and Australia, so he has been around the world and half again.

A Demonstrator.

Mrs. Edna Baker is in the city demonstrating the merits of the Economy fruit jar. She was at Young's yesterday and the day before, at W. M. Parker's today, will be at Eastburn's tomorrow, at Fox & Cummings Friday and at Stetter's Saturday. The person who can hear Mrs. Baker demonstrate an Economy jar and not be convinced it is the finest thing in the world is as obtuse as a U. S. senator.

Come On, Mr. Welch.

Al Welch says that the Portland, Eugene & Eastern has got the money and is ready to get busy. That is what the people here want and they will stand back of the first company that shows the inclination and ability to do things.—Eugene Guard. Ditto Albany.

BOOSTERS.

Jack Hammell has completed the brick and plastering on the new Stetter brick, doing a good job, his second building this year. Bob Snell is rushing the wood work preparatory to the Stetters getting in their own property, which they are anxious to do.

Mrs. Ball, mother of Mrs. C. H. Curick, has let the contract to Fred Blount for a fine bungalow next door to her daughter, on the lot recently bought by her, which she will make her home, coming here from Asford, where she has been the past two years with a son.

This will make five new houses in that vicinity this year. Another one is being put up by S. S. Train on Eighth street, and will be occupied by H. A. Nelson and family when completed. Work has also been begun on Judge Duncan's new residence. Earl Brandeberry will also erect a residence for his own use adjoining his present residence.

SHOULD BE EXTENDED.

The corporate limits of Albany should be spread out considerably, at least so as to take in the section at the south end of Ferry street and beyond the depot. Albany is growing and this is needed. There is quite a lot of property owned by the Western Oregon Co., that is badly needed in the development of Albany, and should be put on the market, at least it should be made to help pay the running expenses of the city. A good big tax might induce the Company to do something with the property. Albany's rapid growth now calls for an extension of the city limits, something that should be looked after.

Club Doings.

Manager Struble has just sent a good sized package of the new eight page folders to the A. Y. P. E. fair for distribution, the first this city has had there for advertising purposes, and the club previously having none to send. It is a splendid means of exploiting the resources of this part of the world, and it is to be regretted there was not something there from the start. Manager Struble is sending out several hundred packages daily in response to inquiries from the east, and as well many personal letters, wherever calling for a personal response. The regular weekly meeting of the club will be held tonight.

At the East End.

L. P. Terhune has sold his home property at the east end to Mr. True-love, for \$1600. A year ago the property was offered for \$1300.

Ed Sears has bought a lot in the east part of the city and expects to build.

F. M. Pomeroy who owns six lots is talking of building three or four houses, and says he will if there are renters in sight for them. No trouble about renters.

Come to our store and see the new dainty patterns in Wall Paper, New, clean, stock just arrived, many new shades in brown and olive. Let us help you fix the dining room, parlor, or hall. Prices correct. BURKHART & LEE.

F. G. WILL, for Watches.

THE LAND LOTTERY.

J. C. Mayer and several other Lebanon men returned yesterday from their land hunt up in Spokane country and left for home last evening. They registered at a couple places, and Mr. Mayer remarked that was about two too many, that he would be willing to sell his chances for \$5 and it had already cost him \$75.

The remark was made that probably not one person in a hundred will take a chance even if given one, there being only a few that are first class. Then it would take another trip to hunt up the land wanted, paying a cruiser a fancy price, and a third trip with one's family if married, to the claim, for fourteen months, or five years if a timber claim.

It is an immense thing for the railroad. The little road between Spokane and Coer D'Alene alone, will clear several hundred thousand dollars from it and it is a harvest for the city.

While the discussion was going on, on the depot platform a young man with his grip was standing near listening.

"They can't bluff me out," he remarked, "I've started, and am going any way." And he left on the next train, and many others are going from this valley. Many who are registering are people on their way to the Seattle fair. Unless they get the first choices many of them will never pay any attention to their drawing.
