**THURSDAY.
TO REACH
ALBANY BY
SEPTEMBER.**

Work is to begin at once on the Salem system of the Northwest Co. The Statesman says:

Frank W. Waters, representative of the Northwest corporation in this city, is authority for a statement that the cars that will be operated on the city line here will be of the same type as those operated in the city of Albany. Visitors to the "Hub City" have commented on the excellence of these cars. They are of the latest and most approved type.

As soon as the weather becomes sufficiently settled this coming spring, work on the interurban line from Salem to Albany and Eugene will be pushed as rapidly as a large force of men and money are able to do it. It has been estimated that the line will be in operation between Salem and Albany by the middle of September, and the Eugene extension, which will be started from the Eugene end of the line, will reach the connecting point by late fall.
