A TOWN'S EYE-SORES.

An eastern newspaper writer out here, poked a little fun at the weeds along the streets of Corvallis, attracted to them on account of the city being the seat of a great college. Since then the editor of a Corvallis paper has been busy seeing just about as many weeds in the other towns of the valley, and he has had no trouble in finding plenty of them. Anything will grow prolifically in this remarkable valley, and the weeds are among the things that fairly keeps one busy keeping track of. All of the cities of the valley are afflicted with dog fennel and other miserable little pests, nuisances of the worst order, and it is going to be a great problem how to get rid of them. Some cities take more pains than others in cutting them down, that is about the only difference. Albany might do better; nevertheless it does pretty well, and many people are at least taking pains to cut them down along their property as fast as they get up. It should be universal.

Perhaps we do well when going into a city to see the things to be commended more than the eye-sores, always to be found; but there are some things that have to be seen and exterminated.

JABS

—By Jones—

The people of the United States feel so thankful for the reductions in the prices of necessities of life caused by the G. O. P. reducing its trust protective tariff. Haven't you noticed it? Well, didn't Taft tell us it had, and isn't what Taft said true whether it's so or not? Put one of the Taft smiles in with your bank account and get credit for \$10 on the same.

You will notice, fellow citizens, that our great and good congressmen from Oregon are not opposing Cannon. They love him, and all his ways and means. They expect you to love Cannon, just as much as they do. Cannon loves the trusts and corporations like a brother and he needs the votes of the Oregon congressmen once in a while.

Albany is not the only city on the map, but it is making a spot there. Every citizen who builds and improves helps Albany in doing so; but every citizen who keeps an idle lot and a tin can reservoir is not helping Albany any by doing so.

The man who comes to Oregon and buys a piece of land and builds on it is a help to Oregon; but the farmer who comes here and buys a plot to hold idle until somebody buys him out of the way is not helping Linn county a little bit even.

We are told that the Russian emperor is the owner of some Oregon land. The king of England owns more property in the United States in value than any one American Colony amounted to in 1776. Much of it is held idle for Americans to pay for some day.

THANKSGIVING WINDOW.

Unique and a Booster for Albany.

In its East window the Blain Clothing Co. has a display out of the ordinary, worth going many blocks to see. It gives a living picture of the chief events that have occurred in Albany this year, and reminds us that Albany is a city, where things happen, as well as a city that does things.

First, the dedication of the Elks Temple, the finest in the valley, with appropriate emblems, Feb. 18. Then the great Johnson Revival meeting, the good effects of which will live forever, May 7. The meeting of the State Teachers Association June 29, showing the pedagogical paraphernalia; the Apple Fair, Oct. 27, a state wide event; the Chrysanthemum fair, Nov. 10, so successful that it will be the means of transforming the unsightly "Harriman Lake," into a City Park, that will be a thing of beauty and a joy forever, on Nov. 13; last but not least, the Pilgrimage of the Shriners to our fair city, the warmest yet.

Booster cards, telling of 12 miles of cement walks, 23 blocks of pavement, and new brick blocks, and new houses and new people.

In the center of this display is the Phoenix, a fabulous bird, said to live 500 years in the Arabian desert, and to rise rejuvenescent from its ashes, after immolating itself on a funeral pyre. So has this entering firm after 45 years of business life, risen from the ashes of Aug. 6th, ALL NEW, better and grander than before. W. R. Blain is the artist.

HUMAN HEARTS

With all the hue and cry about the immorality of the stage, certain plays of the type of The Old Homestead, Shore Acres, Human Hearts etc., continue to grow in popularity. Instead of receiving adverse criticism from the pulpit, the management of Human Hearts continually receive letters from leading clergymen throughout the country, praising it for its heart interest and the beautiful moral story it tells, making an evening well spent for all who see it. The old adage that "a good man should marry none but a good woman" was never more truly illustrated than in Human Hearts.

Human Hearts will be the attraction here Friday night, Nov. 26.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
