In *eeford, with a population of 5.500 there were 162 arrests for drunkenness, 36 for fighting, for obscene language, total far the year 283. WORK ON SOCIALISM.

An lowa Lawyer in the Field.

Lawyer J. M. Work, of Desmoines, Iowa, a good speaker, addressed an audience at the court house last even-

awdience at the court house last evening on socialism.

He said almost everybody is dissatisfied nowadays, that a feeling of unrest is abroad in the land, because of the capitalist rolling in wealth he has not earned, but by the working classes who in justice ought to have it.

The present great question is how can justice be done, which he proceeded to tell, declaring it to be the collective ownership of the exploiting industries by the public, which would take the benefit from the parasites to the people. It cannot be done by smashing the trusts or by regulating them. The owners of the industries of the country will regulate them. In short socialism is the remedy, according to Lawyer Work.

Getting enthasiastic he said: "We are

Getting enthasiastic he said: "We are making new converts to socialism every day. It is only a question of time when we will be in the msjority. As fast as people learn what socialism really is, they become socialists, knowing it is the only way out of the present conditions. When a person becomes a socialist this world becomes bright with hope, because he sees the appalling evils can be remedied."

Another meeting at the court house tonight will be addressed by Mr. Work, who will give special attention to answering questions about socialism.
