2 1/2 TIMES AS MUCH LIGHT FOR THE SAME MONEY

Tungsten Lamps Make Electric Light Much Cheaper.

They have two and a half times the efficiency of the ordinary carbon lamp hitherto in general use. The filament is made of a rare metal called Tungsten, which yields an intense brilliancy at low cost. In shape and size the bulb is just like any other electric incandescent lamp. Why not try a Tungsten lamp yourself? Get one of the 40-watt and use it somewhere in your house in place of one of your carbon lamps. Then observe the great difference. Note the clear white light, exactly twice as brilliant and costing you one-fifth less for electricity. Tungsten lamps are destined to displace all others, for both store and house lighting.

WALLA WALLA HAS \$135,000 FIRE STARTED BY AN OIL STOVE.

WALLA WALLA, Wash., Dec. 3.—Goods valued at \$135,000 went up in smoke at the Motter-Wheeler department store this morning just as the clerks were driving to open up a large "expansion sale." The fire quickly gutted the building, except one bank of shelves, and water completed the damage. Tonight 40 employees are out of work. While the fire department was suppressing the flames a number of the clerks stood amid the wreckage weeping. The insurance on the stock is estimated at \$82,000 and messages have been sent for agents to come and adjust the loss. Tomorrow morning men will separate the damaged goods.

"I have been here 27 years," said Manager W. P. Hooper, "and this is my first fire. I have seen many fires but this is the worst I have ever saw. One thing that has been gratifying is the kindness of my competitors."

The fire started from an oil stove in the "ad" department in a balcony over the main floor, and successive explosions of gas are given as the cause of the spread.

The Democrat has received a copy of the Yreka Journal, with a long editorial headed, "The Oregonian's Baneful Influence." It declares the Oregonian a barnacle on Oregon's ship of state, a knocker and a grouch.

Perhaps, but as a newspaper the Oregonian ranks among the best in the country, and there's the rub.

A straw vote among the teachers of Oregon shows 916 for L. R. Alderman, now of the U. O., for state school superintendent, out of 1609, with Kessler second. Alderman has been making good as an educator. He started as a teacher in Linn county and was once turned down as an applicant for the Albany schools.

The Corvallis Gazette Times says the Albany literature claim of 7,000 population for this city is evidently padded, and is probably correct. The Democrat has never claimed 7,000 and doesn't believe in a city exaggerating these things. The census will undoubtedly show somewhere between 5,000 and 6,000, and this is all the Democrat has ever claimed.

Hereafter the records in the office of the Recorder of Conveyances for Linn County, will be abstracted daily, by an expert title examiner employed by our company. In this manner we will be able to keep our records up to the last minute of each previous day, thereby affording better service to the public than any one has heretofore been able to give. It is our intention to maintain the standard of excellence gained by thorough and conscientious work in the past. The very best and latest system of abstracting of titles will be permanently and continuously carried forward regardless of the expenditure of money in maintaining our well established reputation as progressive and reliable abstracters. We assume that every one realizes the necessity of having an abstract of title prepared for the property which is about to be purchased; we solicit your patronage and assure you that we can give you the very best work that is possible with little delay and at a moderate living price. It will be to your advantage to see us before ordering. An unlimited amount of money to loan at six per cent per annum on real estate security.
