The Democrat appreciates a post card from H. L. Waidon, of Eureka, Caiif., a former prominent Albany man, indicted at Galveston, but mailed at Welch, La. He says of Galveston: "This is the nicest, cleanest city, I was ever in. It is a hummer since the new sea wail was built." MONDAY

HERE.

John C. Burkhart and Will Crawford, of Portland, returned last night from Halsey, where they went to make arrangements for a field for experiments with their flying machine. The farmer wanted too much and they gave up the project. Halsey should have furnished a field free. It would have put it on the map. The young men are in Albany and our business men should see that they have a place absolutely free for their experiments. It will attract more attention to Albany at the present time than anything else. The flying machine is now it, and Albany may well help to promote the experiments of the young men, at least by seeing that they have all the open fields they need.

Mr. Burkhart declares there is no

Mr. Burkhart declares there is no question but what the flying machine will go. It is a sure thing. The great thing though is to be able to learn to run them, something that takes confidence.

A Big Defeat

The Albany high school basket ball team again got into their gait. Two of the best players had been in bad shape in the Salem and Chemawa games; but Saturday night were again in good form and there was something doing, as the score shows 53 to 8 in favor of Albany.

This week the boys will play Rose burg, Cottage Grove and Junction.

A Big Car Load,

There arrived today from Chicago, one of the heaviest car loads of stuff ever received at this city. It was composed of 59,250 pounds of cable for the new system of the Pacific Telephone Co. of this city, to be used in connection with the new building, and the freight alone was \$711.

A fair sized audience, greeted Mrs. Harriett Labadie, at the M. E. church last night. People had a curiosity to last night. People had a curiosity to hear a reader who could charge a dollar for a one person entertainment and earn her money. Frederick Ward, a master, didn't get that much. Mrs. Labadie presented The Servant in the House, an English story, with a Bishop or two, perhaps three, in it, and a drain cleaner and a woman or two and the servant, who proved to be the brother of the man about the house. It brings out numerous characters and a little socialism, with an occasional rough feature and as well some neat characters. Mrs. Labadie is a reader of more than ordinary strength, possessing splendid expression, a fine voice and a charming presence, and is certainly wo,th the hearing: but 50 cents would be a reasonable price, except perhaps back among the U.S. renators. enators.
