DOINGS OF THE WORLD.

Medford's first car load of pears brought \$2.55 a box.

The Warren Construction Co. subscribed \$600 to the Ashland publicity fund.

Billy Sunday is in Oregon and will speak at Oregon City tomorrow on Booz or Get on the Water Wagon.

Drexel, an American, yesterday at Lanark, England, flew 6750 feet high in his frail craft. That's nerve colossal.

The big tent meetings under George Taylor, assisted by Prof. Wegner, the singer, and others, will begin at Lebanon September 1st.

Secretary Ballinger is on his way to Klamath Falls, where he will arrive tonight. He was on the Shasta limited, by special dispensation.

"The eloquence and brains and ability of the republican party are back of the primary law," says the Salem Journal whose editor is back of it, and the people are also. Watch and see.

The claim is made that there is \$30,000 worth of gold in the pavement of Medford. The rock was taken from the tailings of the Opp mines, which is claimed had at least \$1 worth of gold to the ton.

Roseburg Review:—Miss Marcus, a field worker of United Protestant churches, formerly a co-worker with Evangelist C. Fenwick Reed, left here this afternoon for Cottage Grove, after several days' stay in this city.

The Statesman reports the river at zero at Salem. At Albany it is .8 of a foot above zero. This indicates a discrepancy in the gages of the two places. The different cities ought to agree in the matter of water heights.

The new Christian church at Eugene is to have a capacity of 2,200 people. The plans have been drawn. It is to be oblong 96 by 150 feet, with an 80 foot dome. It is to be of concrete, with a roof of tile and galvanized iron.

Things aviate at Dallas this afternoon when Col. Hofer and Walter L. Tooze debated the assembly question. The debate that counts is the one the voters are having, which will be given an emphatic expression on primary day.

S. P. Bach has been elected president, J. C. Mayer vice president, Alex Power cashier, S. M. Garland, J. C. Mayer, Alex Power, J. W. Burkhardt and John Wither directors, of the First National Bank of Lebanon.

Lawyer W. F. Herrin passed through the city yesterday for Portland to consult with President Lovett, who didn't have time to go to San Francisco to see him. Last evening Manager O'Brien gave a banquet in honor of the president of the Harriman roads, with big R. R. men present.

Married in an Auto.

Archbishop Chambers, of the Episcopal church, recently had an interesting experience in the marrying line. J. W. Keyes and Miss Eva Patterson of Medford asked if he didn't want to take a joy ride, which of course was agreeable. The automobile flew to Jacksonville, stopping at the court house, and then to Ashland, where it stopped in a pretty corner of the Ashland park, where Rev. Chambers tied a matrimonial knot, and the happy couple were taken to the cars and left for California.

Central Committee Met.

The state democratic committee met yesterday in Portland to talk over matters, as it properly should. It took no hand at all in the candidates, a matter entirely for the primaries. But the Oregonian with its customary colossal smallness refers to every thing it did as assembly, in order to create a sentiment in favor of the republican assembly. But it will not fool any one. S. M. Garland was present from this county.

Coming

Those who attend the performance given by Richards and Pringle's Famous Georgia Minstrels at Albany August 18, will be given a treat.

Retaining all the old-time atmosphere that made minstrelsy so popular in the days when the Mississippi was the commercial highway of the country and the care-free darkey sported amid the cotton and the cane of the Southland, to gether with all the latest and brightest ideas of the present day, Richards & Pringle's Minstrels stand supreme.

MADE IN ALBANY.

The Democrat copied an item from a Eugene paper stating that the machinery for the dredge of the Albany Gravel and Sand Co. was being made in that city; but instead, it is being made in Albany, by the Albany Iron Works. The Company simply sent there for a washer. Practically all of the machinery will be made in this city for the dredge, bunkers and elevator. It has been designed by Roy Wood, a U. O. graduate, and speaks for his knowledge along this line, practical as well as theoretical, for he has assisted in running a big mining dredge under his father for several years.

This plant promises to be one of the best new industries of Albany for some time, an important one, whose business will be greatly developed.

Four Generations Present.

Mrs. A. Rideout and daughters yesterday afternoon enjoyed a picnic outing at Bryants Park, at which time four generations were present. In the evening a fine dinner was spread, enjoyed by the twenty relatives present. Those present were Mrs. A. Rideout, of this city, Mrs. C. Q. Rideout and daughter, Mertie, of San Leandro, Calif., Mrs. Omer Hendrickson, of Heppner, Mrs. A. O. Rankin, Mr and Mrs. J. A. Dumond and children, Mr. and Mrs. Earl Brandeberry, sons Kermit and Cedrick, Miss Lillie Rideout and Miss Bessie Parsons.

Worth Seeing.

Something extra at the Electric is the funeral of King Edward VII. genuine pictures of the recent funeral of England's popular sovereign. Such pictures are an education to the people of Albany should show their appreciation for. At the time enormous prices were paid for good seats in London. It will cost only 10 cents at the Electric, with some good vaudeville thrown in.
