TO CONGRESSIONAL CANDIDATES.

Every man running for congress, according to a suggestion in Everybody's, should be personally requested to answer the following, the people have a right to an answer to:

If elected to congress, will you vote

1. For Cannon for speaker?
2. To take away from the speaker the power of appointing committees and to give it to the House?
3. To revise the tariff again, so that it will represent only the difference in wage cost of production between the United States and foreign countries?
4. To authorize the Interstate Commerce Commission to regulate rates on the basis of a physical valuation of railroad properties?
5. To authorize the Interstate Commerce Commission to limit the issuance of stocks and bonds to the actual investment?
6. For the direct election of United States Senators?
7. For a reorganization of the post-office department, and the appointment of a permanent director of posts?
8. For a bill to prevent the government from selling any more of its mineral deposits, the same to be leased at adequate rentals and for moderate periods?
9. For a bill to prevent the government from selling any more of its existing water sites, the same to be leased as above?

CONSIDERABLE OF A REFUSER

A hairbrained editor down in California says: "Imagine Bryan refusing anything." Mr. Bryan has refused a great many things, some of them political. He has always stood for the best in government and society, morals and religion. An exchange aptly says he has refused to drink and guzzle. He has also declined the bad in the things of life and stood for righteousness. Saloon bums may be depended upon to whack men of the character of Bryan. Also their sympathizers. He may have made mistakes politically, but altogether he represents a splendid type of manhood, beside which the thirty cent California editor is a gnat.

MAY MAYOR GAYNOR RECOVER

A universal sentiment has gone up in favor of the recovery of Mayor Gaynor of New York. It is said that in every church of the city on Sunday there were prayers for him. He has established a character in New York that calls for confidence and the desire that he shall be spared to continue his administration of the affairs of the city along righteous lines. The country has none too many men like Judge Gaynor, clean and clear for the best in civic government.

First Shipment of NEW FALL SKIRTS AND SUITS

Some Striking Styles that are Unusually Pretty and Desirable We Invite You in to See Them

The New Garmets

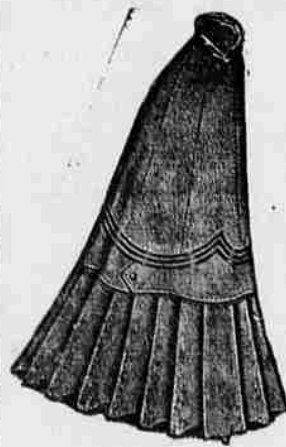

One shipment and a large one of skirts and suits has been received and we are enthusiastic in the praise of the new styles.

They are different, largely in the trimming and somewhat in the cut of the garment. This is particularly true of the skirts, the better ones being beautifully trimmed in brading of silk soutache put on in new and pleasing designs on voile, panama and serges of good fast black colors and all wool materials. Many of the skirts are made with this trimmed band set above a pleated kilt giving a good full skirt at the bottom and a neat smooth fit over the hips. Other styles have an overskirt effect fitting smoothly over the hips and trimmed with silk soutache.

We illustrate two styles. The trimmed skirt is made of voile and is very high class in every particular, selling from \$15 to \$18.50.

The plainer skirt is of serge or panama and sells from \$7.50 and up in different styles. The suits are very attractive this season. Coats come medium length and plain tailored effects, which bring out beautifully the graceful lines of the garments.

Come in and see them.

In the Dress Goods Dep't

Quite a number of pretty new things have arrived in this department and it is taking on the appearance of Fall. Among the most attractive materials received is a line of

PANAMAS AND SERGES

These excellent materials are all wool—come 36 inches wide and in all the good dark shades of red, blue, and brown besides black.

We think they are very special at the low price we have placed on them. They are selling at per yard, 60 and 75c. Then there is a very choice line of plaids in new combinations that are also very reasonable and popular. These come in several grades from cotton to wool and sell at per yard, 25c to \$1.25.

KIMONA MATERIALS.

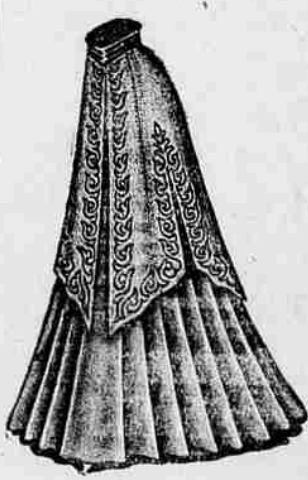

Several different materials are shown in these and the patterns are very unique.

One of the choicest materials is the kimona flannel—always popular and very durable.

Patterns this year are new and attractive. Price per yard, 15c and 20c.

Serpentine Crepe—That beautiful crepe material that is wonderfully suited to the making of kimonas. New patterns and colors in these. Also per yard, 20c.

And a nice assortment of new fast color gingham in stripes and checks at per yard 15c.
