ond story,

Dr. D. T. Brancroft, the man who saw Lincoln assassinated, last night at the Presbyterian church spoke on How to Do Things. He was formerly a commercial traveller, but gave it up for Christian work. He built the big Bancroft tabernacle in Kanses City and told of nis experience in doing things himself. The secret of success in church and Sudday school work is get ting out and doing things onesalf, not leaving it for others. The Christian needs to look himself over and see if he is consistent. Too many just depend upon their faith. There must be more work. While the work is different in a place like Albany from Kansas City, the spirit needed the same. Go out and bring them in, using the gospel of kindness and goodness is the prescript-ion for doing things. Tonight Dr. Bancroft will deliver his lecture on the Assassination of A braham Lincoln, showing several souvenirs, one a wooden button from the log house in which Linceln nonce lived. Admission free, with a collection.
