WHAT GOOD ROADS MEAN.

Prof. H. M. Parkes, of the O. A. C., who has been out in Linn county examining our rock for roads, speaks some wonderful truths in reference to the value of good roads to the farmer. He says: "I never find good farms unless good roads have first been built, and I always find the people much like the country. You can provide the richest kind of soil and the finest kind of opportunities, yet if the roads are not good the country will appear run down and the people shift- less."

There is something in this that should make the farmers of the coun- try think until the grey matter rattles, and as well the people of the cities, who are also benefited by good roads.

Moral:—Everybody should be for good roads, whether candidates for office, or just plain everyday citizens, and so emphatically something will be done all along the line.

KEPT TAB.

Last time the legislature met the State Federation of Labor kept two men in attendance all the while, and they kept tab on every member. Now they are being published, and some good politicians are greatly worried. The test measures were the employ- ers' liability bill and the constitutional convention bill. Those who voted against the first and for the second are classified as no friends of the peo- ple. Those who voted for the fool "hatpin" bill are classified as lacking good sense.

TOO MANY OFFICIALS.

The ballots next November will be about 30 by 36 inches in size. Con- siderable criticism is made because the 32 initiative and referendum peti- tions take up so much of the space, but nothing is said about so many of- ficials. Fact is we elect too many at once. The short ballot is advocated as a return to real rule of the people. There should not be more than eight or ten different offices to fill at any election.

THE FREIGHT DEPOT

Deeds were filed today by the Oregon Electric, by their attorney G. S. Hill and settles the freight depot location and terminal. One is from Sarah M. Clark for lots 1, 2 and 3, and from Ivy V. Cramer, for lot 4, all of block 114 Hackleman's addition, one from J. M. V. Bilyeu for lots 1 and 2 and another from Jos Fierstein for lots 3 and 4 of block 109, next west of block 114 on Water street, and 25 by 132 feet from M. B. Reeves, block 117, next east on Water Street. The depot is to be in the Cleek block, 114.

A strong reason for having the depot at this place is the fact that high water never reaches it, while further up this way it has frequently been inundated, a material point.

Another deed is from Hertha Gotlieb to George Taylor to the Oregon Electric for lots 7, 8, 9 and 10 block 1 Allen & Hawkins Addition.

Mr. Stevens himself will be here after awhile to select the passenger depot, which will be as near Lyon street, it is said, as can be secured. In the mean- time the deeds for several rights of way for the passenger line, have been filed, one today.

Dreamland,

The present program is an exception- ally strong one. The feature film Trilled to Hills, making quite a hit. The rest of the program is good and is as follows, The Sculptors Ideal, a beau- tiful hand colored picture, The Broken Symphony, a tale of a musician's love affair, and The Forbidden World, a rip roaring comedy. Miss Neilson makes quite a hit with her song.
