

# The Gilberta Flounce

Really Even to the Drawstring at the Top.

The first and only separate adjustable petticoat flounce having a drawstring attachment at the top, making it easy to adjust to an old or new petticoat foundation, by the simple operation of stitching it on by hand or on a sewing machine.

Women who make their own petticoats in order to have a perfect fit will delight in this innovation.

You do not have to throw your petticoat away because the flounce is worn, make a new one by adjusting one of these.

Several styles of flounces in saten, silk and heather-bloom, 60c to \$2.50.

## A DELIGHTFUL RECITAL.

A large audience at the United Presbyterian church last night listened to the opening recital of the conservatory of the college, with appreciation, frequent encores giving expression to the satisfaction with the talent displayed.

The program was opened with some well performed selections on the organ by Miss Sox, Morning Mood and Asc's Death, when Miss Grace Houck, the new teacher, a fine appearing young lady, was presented in Chopin's Polonaise, Op. 53, and was also heard during the evening in Chopin's Nocturne, Op. 15, No. 2, Ravina's Enode and the Hungarian Rhapsody No. 2, playing without notes. She has a clean style, excellent expression and a good memory and promises to be a popular performer here.

Miss Louise Blackwell, with her charming personality, was heard in several readings, the Wiggs theater party and Father, with some encores, as always greatly pleasing. Miss Smith, who has made good in an eminent manner as a vocalist, was heard in Cavatina and a cycle of pretty songs.  
It was a program of merit, a fit introduction for the new pianist.

### Parents' Meeting At the High School

All parents of pupils in the high school are most cordially invited to attend a Parents' meeting at the high school building at 3:30 p. m. Friday, Oct. 14. Everybody interested in the success of the high school is especially invited, but the presence of those directly concerned is especially desired. It is not that a livelier interest on the part of the patrons of the school in what is being done, or ought to be done in school, cannot but be helpful to all concerned. No community can have the best schools without the intelligent interest of its people. The purpose of the Parents' Meeting is to bring the schools and the people closer together, to talk over our own and other schools, and to seek information on educational matters in general. The first meeting will last only thirty minutes and it is hoped that the interest shown will warrant other meetings. There will be an opportunity for seeing the various rooms and their equipment, if visitors wish it.

### The Gravel Factory.

The gravel and sand bunkers will probably be running tomorrow, when those who have been waiting for gravel from the new institution will be able to secure it and there is liable to be a run on the bank. This promises to be a popular thing among Albany's industries. It has cost a good deal of money and deserves a big patronage.  
By the way it is going to be a big thing for the county too, saving a good deal of bridge floor from wear.
