Application was made by the Southern Pacific railway and Oregon, Railroad & Navigation company, who set up in the petition that the new rates would cause them a financial loss of \$3,000,000 a year. The injunction is asked both on the grounds that the rates are unreasonable and that the act of the legislature creating the commission is unconstitutional. Hearing on the writ is set for November 7.

OBSERVED

By the Man About Town.

The new sand and gravel mill is in full operation. The gravel of the bed of the Willamette will now become a splendid commercial commodity, and the taking of it away will help the river, deepening it, thus protecting the north bank. Four grades of gravel are made and a sand bin fills as fast as any of them, something much needed here in building operations.

A sign between the depot and W. F. building, reading: "No more driving here. Keep out." This is to be made part of the park, and the draymen would like it themselves.

A neat little 8 page booklet entitled Christmas In Memory, tied with blue ribbon, and composed by Inez T. Easton, formerly of Albany College, now a teacher at Klamath Falls. It is a pretty story beautifully told.

Fairweather, Three Crown, John's Dry, Watson's Aged, Tennessee Green, Ad Hickory, King's Ginger and any other old thing.

A Western Play.

"Arizona," as the name implies, is a play which has its scenes, characters and incidents located in the far West. The people of the play comprise the sturdy ranchmen and cowboys, the brisk, alert women of the pioneer generation and their dainty, graceful, yet strong and self-reliant daughters, type of the American girl over which the whole world has come to wonder and admire; officers and soldiers, fair samples of the heterogeneous community which Mr. Thomas has chosen to utilize in the way of literary material. The piece is full of bright color contrasts as the changing combination of a kaleidoscope. It fairly pulsates with the fresh, vigorous life of the young West. At the opera house Wednesday, Oct. 19.
