MISFITS.

Vote on Monday for somebody. Don't stay at home.

The office of councilman is a very important one.

This park business has been put off too long already.

Albany wants a city park very bad, somewhere. Where?

A grand opera singer says the cock-tail is the curse of the country.

There are 91,000,000 people in the U. S., of which 672,765 are in Oregon.

President Taft is about to unite his party. Better unite himself first.

Mr. Van Dusen, the apple judge, says there cannot be an overproduction of apples in this country.

A college president would curb the trusts, but that can't be done with U. S. senators made up of trust magnates.

Oregon's sprinkler is doing good work these days, fixing the ground for next year, the greatest of all fertilizers.

The Times says the Brownsville Commercial club, which has been sick, will live. It has been given a dose of push.

Chairman Billy Jones, of the Marion county republican central committee is to be congratulated. Col. Hofer is after him, a compliment to Billy.

Benton county is hilarious. It has a native apple, the Vanderpool, which is attracting attention, a good one. Har old Rumbaugh has brought it to the front.

An effort is being made in Portland to limit the session of the state legislature to twenty days, but it is all on paper, just wind. When the legislature meets it will take it about twenty days to get started, and it will want more time at the end of forty days instead of less. A twenty day session is bosh on paper.

Commonwealth Day.

Jan. 12 and 13 have been set for commonwealth day at the U. O., a month earlier than usual, so as not to conflict with examinations. The subjects selected this year are: Improvement of country life conditions, Upbuilding of a Healthy Conscience, Social Service of the Physician, enlistment of the state bar for securing of promptest and most economic justice through the laws and courts of the commonwealth, enlistment of women's clubs for effective social service, cooperation of University with women's clubs to make effective this sentiment, securing of more enthusiastic and energetic espousal of responsibility by the students and graduates of the University toward encouraging and coordinating all social interests in commonwealth upbuilding.

An Old Story.

Jefferson Review.—The Review is informed (don't ask us how) that the census report will show less than 400 population in Jefferson. The census taker is one of our best boys, and was raised here, but there is a mistake somewhere. We had more people than that 15 years ago. Since that time a great many dwellings have been built, and there is not one of them at the present time vacant, and we can't see, under these conditions, how the population could decrease.

At the Electric.

Beatrice Guiver made a hit at the Electric last night before a crowded house. Her serpentine dance is said to be the best ever given here. She has 114 yards of cloth in her dress and is before the audience twelve minutes, presenting a wonderful performance. She will be seen again tonight, together with the same splendid moving picture program.
