THE STEADY SUBSCRIBER.

How dear to our heart is the steady subscriber
Who pays in advance at the birth of each year,
Who lays down the money and does it quite gladly,
And casts 'round the office a halo of cheer,
He never says, "Stop it, I cannot afford it,
I'm getting more papers now than I can read,"
But always says, "Send it, the family likes it—
In fact we all think it a real household need."
How welcome he is when he steps in our sanctum,
How he makes our heart throb, how he makes our heart dance;
We outwardly thank him; we inwardly bless him—
The steady subscriber who pays in advance.—Anonymous.

BE LOYAL OR QUIT.

In a note to the employees of the Home Telephone Co. at Corvallis Mr. Middleton said:
If you must vilify and condemn and eternally disparage, why resign your position, and when you are outside again damn to your heart's content—but I pray you so long as you are a part of the institution do not condemn it. More than that, you are loosening the tendrils that hold you to the institution, and in the first high wind that comes along you will be uprooted and blown away in the blizzard's track, and you will probably never know why. Everywhere you find those out-of-a-job fellows. Talk to them and you will find that they are full of railing, bitterness and condemnation.

A RELAY FLYING RACE.
For the first time in the history of aviation a relay race will be run, or more correctly, flown at Aviation Park, South San Francisco, on January 10th. This will be the most spectacular event of the entire meet and will be a contest of speed and quick starting between teams of three. The Wright aviators will be represented by Roy Knabenshue, Archie Hoxsey and Walter R. Brookings, the latter riding his "baby biplane" with which he has made such spectacular speed flights. Willard, Mars and Curtiss himself will relieve each other and endeavor to win honors for the Curtiss machine.
The Farman biplane will be entered with Clifford Harmon, the American amateur, and possibly Graham-White the English flier and one of three French aviators.
