THE ARMORY A GOOD ONE ON ALBANY

In the Saturday Evening Post Just Out.

There used to be, and perhaps is now, a company of brave fire ledies in Albany, Oregon, known as the Linn County Fire Company, No. 2. It was a volunteer organization and pretty near all of the best people in the city belonged to it, including United States Senator Chamberlain.

In this town was a young lawyer, whose father was very rich, and who had been sent to an eastern law school. Since his graduation he had done nothing except open an office, because he had plenty of money. This young lawyer was proposed for membership in the Linn County Fire Company.

"We cannot elect him," one of the members protested. "The constitution of our company says that the members of it must sleep in Albany and live here in the city; and he lives out of town on a farm and not in the city at all. He would be of no value at all in case of a fire at night."

"No," replied Chamberlain, "it is true he doesn't sleep here at night, but he sleeps here in his office all day."

And they elected him on that ground.

Corvallis Man Wants a Wife.
A Corvallis man, at 421 South G Street, P. O. box 155, whose name is not given, has come into notoriety by writing the mayor of New York for a wife, having heard that there were plenty there. He says: "We have lots of ladies out here but they want you to keep the house for them and give them a gold brick every time that you look at them. I am a man that makes a good living and can keep a wife on I want none but she must be a good woman. I am not a man that drinks and I don't dote in sloons. We have a city of 9000 pipe and it is dry. I want a pure woman that wants a home, etc."

That 9,000 population statement shows what a liar he must be.

The Motor Flew.
The G. T.—The big passenger motor, No. 41, in operation on the Albany-Springfield line, came over to Corvallis Sunday on a tryout run, the object being to test the new heavy steel rails which are now being laid on the C. & E. between here and Albany. On the run back the time was rather speedy, just how fast officials refuse to say, but it is reported that Riley could have reached Granger in just about the time it took the motor to show up in the Albany yards.

McMinnville Will Pave.
Mayor Leroy Lewis and Councilmen W. C. Cambell, George Elliot and G. W. Hendershot, of McMinnville, were in the city today examining Albany's new pavement, and consulting with Recorder Redfield in reference to the modus operandi, which Mr. Redfield knows from a tizzard and backwards. McMinnville now has pavement in the head and will soon begin formal proceedings for something that boasts every city that strikes the paving gait, a good one, a city never regrets.

Linn's School Census
Superintendent Jackson has completed the enumeration of children drawing school money. The total in the county is 7,770, a gain of 285 during the year. Albany has 1478, a gain of 81; Lebanon 608, a gain of 76; N. Brownville 271, a gain of 6; S. Brownville, 206, a loss of 3; Harrisburg 210, a gain of 35; Halsey 138, a loss of 11; Seilo 150 a gain of 23.

There are 15 high schools in the county and 618 pupils.

It Also Drew.
Northwithstanding the large crowd at the armory the attendance at the presentation of the Time the Place and the Girl was large, a fine Opera house audience. It was well received, a musical comedy, full of snap and fun. The rich farmer who gave his son fifty cents and told him not to spend it all at once, and the fellow who talked like a train of cars on a sprint, were features. There was good music and hilarity.

Big Real Estate Firm.
The Western Oregon Land Co. has been incorporated, with Wm. Ritchie, George Martin and Allan V. Ritchie as incorporators and capital stock \$150,000, paid up. They will buy and sell land, making Albany their headquarters.

The State Tax Levy.
The state tax levy has been placed at 1.5 mills, and the appropriation made by the board. Linn county's share will be \$46,943.15, which is the lowest for a good many years. The total amount to be raised in the state is \$1,385,615.84. The Linn county levy will be made this week.

O. Apples In Cal.
Bert Case recently sent a box of Baldwin apples packed by F. M. Mitchell, from his orchard, to a friend at Biggs, Calif., and received the box back filled with oranges, and a letter declaring the apples the finest they had ever seen down that way.

Sold a Chalmers.
J. L. Irvine this week sold to Dr. Marks of Halsey a Chalmers-Detroit automobile of the 1911 pattern, the Dr. retiring his Auburn. Mr. Irvine reports the Chalmers-Detroit meeting with favor everywhere. In California they seemed to take the lead. He saw one while on his recent trip that had gone 70,000 miles.

A Husband and Wife.
At 2 o'clock tomorrow afternoon Justice Swan will hear what Mrs. Ethel Laurie has to say about her husband Henry, whom she charges with threatening to kill her, particularly if she should take their baby away, and also if she did not have supper ready when he returned from the store.

The Weather.
Range of temperature 40-35. The river is 4.6 feet. Prediction: fair tonight and Friday

FRIDAY. A SUCCESS

Were the Two Days of Armory Doings.

The two days dedication exercises of the new armory closed last night with a military dance, a brilliant social function. A large crowd was present, both on the floor and in the gallery. The new maple floor proved a popular place for dancing. Music was furnished by the Wilson orchestra, one of the best in the valley. The grand march started at 8:30 led by General Finzer and his sister, followed by Col. Whistler and lady and other prominent military men and civilians and their ladies, introducing a program of waltzes, two steps and three steps.

The general committee in charge of all the dedication and convention doings is entitled to credit for the smooth and successful manner in which affairs have been handled, favorably commented upon and commended by visitors to the city. They were Gen. Finzer, President McCune of the commercial city, Maj. Ellis, Maj. Winn, Capt. Hammon, Lieut. Worrell, Capt. Stellmach, Thomas Young, R. C. Churchill, May Wallace, Councilman Curi, Judge Duncan and Postmaster Van Winkle.

The total receipts from subscriptions and the dance will justify proceeding with the installing of a fine heating plant, necessary to making the armory what it should be as a convention hall and place for general as well as military gatherings.

Must Have More Room.
The store rooms now occupied by the Variety Store and Anderson's jewelry store have been rented by the Hamilton Store, and in a few months will be added to the floor room of that large mercantile establishment, more room being needed for new departments and the big demands of the trade. The partitions will be taken out, and pillars used the same as elsewhere in the store. The Hamilton Store is already doing business on three floors, but lacks the room needed in the business. Anticipation of the event Mr. Stearns of the variety store is making a reduction sale preparatory to securing quarters elsewhere in the city.

The Weather.
Range of temperature 40-36. The river is 4.6 feet. Rainfall .02 inch. Prediction: occasional rain tonight and Saturday.

Tomorrow she will leave in the morning for Portland and thence to Chicago, where she will study two years in a training school for nurses, when she will return to her native country, Liberia, Africa, to do special work. Diana was found there by Lizzie McNeill Buckwalter, a former Albany school teacher, then a missionary, and then brought to the United States when five years of age, Albany people seeing her when she had the wild appearance of her childhood. Now she is a cultured young woman, bright and attractive, though very black. Mrs. Buckwalter, who has brought her up, is in California fighting tuberculosis, with which she is threatened.

There will be no admission fee, but a collection will be taken. The public is invited.

With \$1,000,000 capital stock and \$500,000 surplus this company is in a position to furnish the safest insurance to be had. Instead of sending premiums to eastern companies, helping to build up eastern states and cities, the citizens of Oregon have now the opportunity to keep their money in Oregon and at the same time obtain just as good insurance.

A Big Surveying Crew.
A crew of sixteen surveyors arrived in Eugene yesterday, and as usual the papers are busy finding out who they are and what they are going to do, and then building railroads from it. The Register says they may be Hill men, but are probably S. P. men who will run a line to the Coast. It figures that it may be an extension of the Natron line to the Pacific. How easy to build railroads on paper.
