THIS MORNING

News From Albany's Six Early Trains.

After about the worst storm in the history of the valley things were dull at the depot. No. 16 arrived in two sections from the south and waited for daylight before going north, on account of tracks covered with water between here and Salem. No. 13, south bound, also waited for daylight.

Tom Riley arrived on time from Corvallis, and reported the track all right, and Frank Cummins came in from Lebanon with Passenger Agent Jenkins and others, on time. The train left towards Detroit, Conductor Dannels anticipating a wet time of it.

E. B. Horning, a prominent Corvallis man, came over on his way to Portland. He was born near Corvallis and has spent his life there.

Superintendent Briggs and E. A. Johnson will go to Salem in the interest of Justice to former teachers in the normal schools, whose back pay remains unpaid. Also in the interest of several items of school legislation desired by the teachers of Oregon, less holidays for one thing, breaking in on school work, two years longer use of text books without changing, etc.

The Albany Ladies Aid Society,

This society met at the home of Mrs. A. H. Martin on Friday, the Thirtieth of January, for their annual meeting. Reports of officers were heard showing that less than twenty dollars in cash had been expended in relief during the past year, but that many times that amount had been given in clothing, school books, fruit, etc., that had been donated by the members and other friends. While there is not many needing assistance, and we hope no real suffering in Albany, there is a work that this society does, and help extended to many worthy individuals that would be reached in no other way. We hope that charitable people will remember the Aid Society with gifts of clothing and other things that make life easier for those temporarily embarrassed for means.

The ladies wish to thank all who contributed to the Thanksgiving collection, which was generous and we should be glad of the names of any ladies who wish to join the Aid Society and help on this work.

IT RAINED.

3.60 Inches in Twenty-Four Hours

A new record was made at Albany for rain between 8 a. m. yesterday morning and 8 a. m. this morning, as recorded by F. M. French, local displaceman for the government, 3.60 inches. There was one continued, heavy downpour. Though not equal to 12 inches in the same length of time on Panama it was a soaker. The small streams swelled up and run over and the country is covered. The Willamette was 10.4 feet at 8 a. m. and has been rising steadily. There is danger of a record flood, depending upon whether the rain continues. The prediction is rain tonight and Thursday.

From 8 o'clock to press time an additional inch of rain had fallen. The river was nearly 14 feet and rising at the rate of 6 inches an hour. The range of temperature was 48-41, very even.

The small streams have particularly suffered and a good deal of damage is feared.

Some Moist Items

The central school today took a short vacation on account of the furnace being flooded.

The east end of the city is particularly seriously flooded, and navigation has been a difficult matter.

Basements all over the city have been flooded.

Judge Duncan reports no county bridges out yet so far as heard from.

Some washouts over towards the Pacific kept the Corvallis and Eastern back today.

One of the north bound trains this morning took the west side for Portland. The Eugene local was cancelled at this city and the second section of No. 16 took its place and started for Portland by the east side, stopped by the washouts.

Over one hundred men are at work between Albany and Salem repairing the washouts and trains may be run this evening.

The foot bridge at Second street and Pennywinkle went out this morning and lodged near First street, so Johnny Goins has a bridge now. The bridge at H. Bryant's is crippled.

A family on the Santiam is reported marooned, and neighbors are trying to get them to a place of safety.

There is a washout on the main track of the S. P. and also near the Jewish cemetery below the city, and perhaps in other places between, stopping traffic on the main line until the storm stops.

Scholarship Fund.

On the 25th of January there will be observed by the Women's Civic Improvement Club, the Scholarship Fund day. Every Federated Club in the state gives the proceeds from some entertainment once a year toward this worthy cause. Young women who are ambitious but have not the means to go to college can borrow from this fund, paying it back when they are able. It is an inspiring thing to work for and we hope all the women and the clubs of Albany will be enthusiastic about working for its success.

Dr. Hinson Tonight.
