**BOBBY BURNS' BIRTHDAY.**

Today is the birthday anniversary of Robert Burns, the poet of the people, an event that deserves being remembered with some good thoughts for the memory of the great poet. Here are some of his thoughts:

Nae man can tether time or tide.

But pleasures are like poppies spread, You seize the flower, its bloom is shed; Or, like the snow fall in the river, A moment white, then melts forever.

O wad some power the giftie gie us, To see ourselves as others see us! It wad frae monie a blunder free us, And foolish notion.

An atheist's laugh's a poor exchange For Deity offended.

Oh, life, thou art a galling load, Along a rough, and weary road, To wretches such as I.

If naebody care for me, I'll care for naebody.

But to see her was to love her, Love but her and her forever.

The rank is but the guinea's stamp, The man's the gowd for a' that.

It's guid to be merry and wise, It's guid to be honest and true.

Princes and lords are but the breath of kings, An honest man's the noblest work of God.

**A DANGEROUS POWER.**

The new governor of California wants fewer offices filled by the people. He wants them appointive, such offices, for instance, as attorney general, superintendent of public instruction, and even secretary of state, railroad commissioner and surveyor general. That is giving the executive too much power. It would help to create a worse spoils system than prevails now. Rather than increase the power of the chief executive it should be curtailed and fewer appointments be given him. The argument is used that the people haven't time to look after such things properly. On the contrary they have plenty of time for necessary things, and it is their business to do it. It is the province of every voter to fill positions demanded for the proper management of the affairs of state. There are plenty of minor positions that should be filled by appointment, but the principal offices should be filled by election if it takes a ballot a mile long. The better rule would be to do away with a few of the offices.

**OREGON ELECTRIC'S COMING.**

The news that the Oregon Electric is to be extended this year is important to Albany people, and it is received here with great satisfaction. There was some fear at one time that the work of extension might be delayed; but the official announcement at this early date makes it clear that work is to be pushed with great vigor. A large force on the line between Albany and Salem will mean a road at a date as early as about August. There are three surveys between Salem and Albany. One of them in the hills would require a very expensive tunnel. This will probably be abandoned and a route more easily managed taken, insuring faster work.

An electric line will mean a good deal to Albany and the surrounding country. Wherever these lines operate new homes grow up and farms blossom into orchards. Cars stopping at short intervals make the electric line popular. A fact that particularly is gratifying is the quicker time made. Portland should be reached in a little over two hours, Eugene in a little over an hour, Salem in 35 or 40 minutes. Come on, Mr. Hill.

**READ AND REFLECT**

Have you ever stopped to think of how much value good teeth are to you?

Do you know that many of the diseases of the body are caused by decayed teeth?

Do you know that proper mastication of the food means a good stomach and good digestion?

Do you know that bad teeth in many cases are the cause of throat trouble?

Do you know that bad teeth, especially the uppers, do affect the eyes?

Did you ever stop to think that nature intended the first part of the digestion of food to begin in the mouth?

What is going to happen if you continually swallow the poison from decayed and broken-down teeth?

I will examine your teeth FREE and tell you the exact cost for first-class work

This morning we went over the entire stock with a critical eye and took therefrom EVERY GARMENT THAT SHOWED ANY SIGNS WHATSOEVER OF BEING EVEN SLIGHTLY SOILED OR MUSSSED. We want every article in this department as fresh and crisp and white as they can be—so these others must go.

There are GOWNS, DRAWERS, and CORSET COVERS—dainty articles trimmed with neatest lace and ribbon run beading. THE MARKING DOWN IS NOT IN CENTS BUT IN DIMES AND QUARTERS.

We wonder if you will take advantage of this splendid opportunity.
