MISFITS.

Will S. F. get the expo.

All kinds of weather this winter:

New Orleans is doing something too.

Poor Pullman. He has been reduced.

Cool snaps make aviators of the wood.

A Seattle man cursed Taft and had to pay \$10 for it.

The Oregonian is very busy knocking the Oregon system, which ought to strengthen the system.

Whacking Jonathan is about all some people think of. He may deserve a good deal, but there are others.

The insane asylum having been duly roasted the members of the legislature will do well to take a slice of the non compos mentis and get down to business.

So far the principal business done in the state legislature has been abuse of Bourne and the introduction of bills for spending the money of the people in big chunks.

The legislative knife ought to be used pretty freely. Past legislatures have been so free with the money of the people it is about time a halt was called. The state should be business the same as an individual.

A bill in the legislature provides for experts on initiative measures before they can be presented to a vote of the people. The only real experts are the people. So-called experts would merely be jugglers to defeat the will of the people.

Eugene has just reached the new telephone stage with the J's and L's and is enjoying it for some time. It is an interesting fact that Albany has always lead the valley in telephone improvements, years ago being the first to have the express system and ever since has kept in the front.
