IMPORTANT QUESTIONS.

A ballot has been taken back east on what is considered the greatest questions before the people. Direct legislation led with 35 per cent, then came inefficiency and delay of the courts in the administration of justice, with 19 per cent; regulation and control of corporations, the tariff, centralization of power, inefficiency and economy in federal, state and municipal administration, the public school system, conservation of national resources, taxation, regulations between employers and workmen and corporemployers and workmen and corpor ation influences in politics.

MILLER FOR U. S. SENATOR.

Pendleton E. O.: Senator M. A. Miller has prominently mentioned as the can-didate of Oregon democrats for the seat in the United States senate now occupied by Jonathan Bourne Jr. "Mill" as he is familiarly known to "Milf" as he is familiarly known to nearly every man, woman and child in Lina county has represented that commonwealth in the upper branch of the Oregon law-making body for so long that "the memory of man runneth not to the contrary." The very fact that the voters of Old Lini have sent him back to Salem regularly year after year, despite the fact that he is a democrat, would indicate that his record as a senator has been unimpeachacmocrat, would indicate that his rec-ord as a senator has been unimpeach-able and that he has proven true to his itrust. In the race for the democratic unomination he would certainly run well "at home" for in every session in which he has sat as a member, Senator Miller has been found lined up on the side of the people.

A GREAT GRAFT PROPOSITION.

An employer's bill introduced in the legislature of Washington is a corker. It is a compensation bill for injured workmen, and may have some good provisions; but one certainly is of a character to attract attention. It provides that every employer in the state shall pay 2 ceuts a day into a fund for first aid, and each employee paying? events a day from his wages, making over \$14 a year for each laborer, a total sum estimated at the enormous sum of \$2,000,000. It is, estimated that it would take 85 per cent of the fund. sum of \$2,000,000. It is, estimated that it would take 85 per cent of the fund for administration of it, leaving but 15 per cent to be applied to relief, speaking for about the most colossal graft proposition yet heard of. It would result in a political machine of a character that could not be trusted, a great scheme to give a gang of donothings big jobs at fancy prices. The Oregon state legislature needs watching: but Washington can evidently give it odds and win out.

VOTE AGAINST IT.

All three classical members in the legislature from Linn county, representing the county in the lower house, voted against the bill appropriating over \$50,000 extra for the U. of O., not because they are opposed to an appropriation, but because opposed to so much at one time. Their position so much at one time. Their position was simply that the appropriations for the U. O., O. A. C. and Monmouth should be kept down to the resources of the state and its population. The principal argument is that other states give a certain amount, and therefore Oregon should do likewise. Not a good argument, for every state must stand on its own case. There is a very serious doubt in the first place very serious doubt in the first place whether it is the province of a state to give for educational purposes beyond the public and high school, with the school that goes with them, the normal. The argument against it is strong and well founded, but the custom is otherwise, practically all states having their universities, liberally supported, and hence Oregon can hardly do anything less. The only point now is that the appropriations should be increased gradually, and not in too big doses for the tax payers, already burdened. It may mean a rising up and voting the whole business down.

JAY BOWERMAN ANALYZED

Weston Leader:
Were the legislature a melodrama, Jay Bowerman would shine as the sinister villain of the play. Jay loves to scheme and plot, and about two-thirds of the unpleasantness which mars the present session may be ascribed to him and his following. Howerman is a young man, but he is an ambitious disciple of the old school of Oregon politics, which would

Is an ambitions disciple of the old school of Oregon politics, which would asthordinate the state's interests to in-dividual aggrandisement. He belongs to that class of people who believe that politics is a game whose chief function is to reward one's friends and punish one's enemies. And al-though he was defeated for governor and lost the control of the legislature

has yet a large following.

Buserman is a past master in the art of playing "geomat politics" He may be classified as a subsceptly may be classified as a noteworth specimen of the genus periodi, fres from the human goober ratch. He was who stirred up the occiles roo over the Oregon instance asylum be cause he disliked its superintendent cause he disliked its superintended the alleged extravagance, when the facts show that the Oregon asylum-is conducted at a less expense per in-mate than that of any state in the union, with the single exception of Georgia.

Georgia.

Bowerman hasn't really much use for facts anyway, when they interfere with his program. When he meets with a heisting and obnoxious Fact he promptly sidesteps and climbs a tree. He prefers assertion and exaugeration. Nay, more. He will take hild-faced Lie to his bosom and fought in levingly if he can make it serve his purposes.
