# **PURE WATER** FOR ALBANY

Through Modern Filtration Plant

An ample supply of pure filtered water for the city of Albany not later than the latter part of this summer, is the announcement of D. C. Green, manager of the Oregon Power Comp

the announcement of D. C. Green, manager of the Oregon Power Company today

The best kind of a mechanical water filtration system will be installed according to Mr. Creen, as d no time will be lost in ordering the apparatus and machinery, constructing the plant and placing it in operation.

"The officers of the Oregon Power Company have been giving the question of Albany water supply serious attention," said Manager Green, "in taking over a number of utility plants in the Willamette Varley, H. M. Byllesby and Company Engineers and Managers for the Oregon Power Company have been confronted with a variety of problems which would require time to work out on the part of any organization no matter how well prepared such an organization may be."

"We have fully decided upon the installation of suitable and adequate water filters. On the completion of this work we will be in a position to furnish the citizens of Albany with clear, pure water."

"The purifiers will be operated mechanically and will be of the most improved and serviceable type, fully capable of meeting all demanps; no steps will be omitted to make the new filtration system of the character which all citizens, engineers and water work experts will approve. We are now perfecting the plans and contracting for the machinery."

Freight Train Loads on Their Way to Mexico.

One hundred thirty five members of the I. W. W., which has be n attracting a good deal of attention in the Northwest, passed through this morning on a through freight, which was at the depot awhile about 7 o'clock. Some were in an open steel car of sand, and others scattered through the train. Thirty or forty were in a car of beer, but were made to change quarters by the brakemen. They attracted considerable attention, and seemed to wish to. A leader came before the crowd and asked for a collection to help buy food. He said the men were going to California and help secure free speech on the streets of Fresno and then go down into Mexico and help the revolutionists. Some of the men had been in the bull pen in Spokane, and others were said to be gamblers just kicked out of Scattle. A few came from as far as Vancouver, B. C.

No objection was made to their riding. The railroad hardly dare do it. Others have been going south, five or six hundred in all, a tough tooking crowd alto gether. Some of the men were pretty well dressed, but evidently appreciate what a man standing on the platform said the meaning of I. W. W. is: I Won't Work.

## New Examination System Proposed.

An educational bill in the legislature provides that all teachers examinations hereafter shall be state affairs. The examination itself will be conducted by the county school superintendent, but the papers will be graded by the state board. Under this arrangement it will take weeks to receive returns from an examination, and will help build up a machine in the office of the state superintendent. The present system of examination by the county board is the proper one.
