

The Democrat.

The Daily-Delivered, 10 cents a week; in advance for one year, \$4.00 by mail, in advance for one year \$3. at end of year \$3.50.

The Weekly—Advance per year \$1.25 at end of year \$1.50. After 3 years at \$2.

THE U. O. APPROPRIATION.

Here is the position taken by the people of Cottage Grove on the big U. O. appropriation, as given by the Leader, which the Eugene papers declare to be spite-work:

That the appropriation of \$503,000 provided for the University of Oregon by the late lamented legislature is extravagant, burdensome to the taxpayers and that no exigency or emergency justifies such an extravagant appropriation, amounting to about \$10,000 each for every student in that educational institution for two years, was the general consensus of opinion of this taxpayers meeting.

Money was subscribed and committees appointed to secure the necessary signatures to the referendum petitions after the meeting had expressed, through unanimous vote, in favor of invoking the referendum upon the appropriations for the institution at Eugene.

ONE GOOD JOB.

The legislature is entitled to credit for abolishing the worst of Oregon's grafts, the state printing beast, as Ben Lindsey would call it. For years this office has afforded men of common attainments to spend four years in the office and retire with enough money to keep them for the rest of their lives, if desired.

THAT EMERGENCY FAKE.

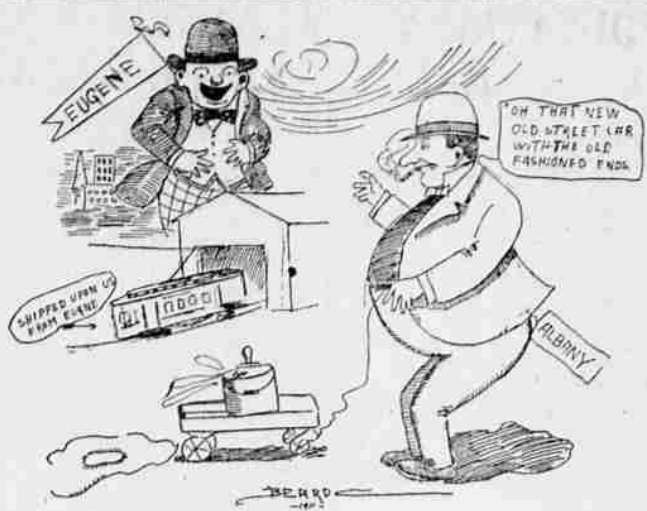

Governor West is vetoing bills that have the emergency clause in them. He is doing eminently right. The emergency clause means that the bill becomes a law at once and cannot be referred to the people by referendum.

PROTECT AND PAY.

The vast timber resources are estimated to be easily worth now not less than half the assessed value of all Oregon. It appears further that it is assessed for about a fifth of its worth.

VETO AX CUTTING.

Gov. West vetoed nine bills yesterday. For a state immigration commission. Eliminating the five days in which a purchaser has to file a deed.

Tommy Beard the artist, gives his ideas about the street car situation that has occasioned some interest.

SATURDAY NIGHT THOUGHTS.

This week occurred the birthday of the Father of our country, George Washington, a man whose name always sounds sweet in the lips of any one, whatever the color or nationality, and whether in the cabin or the palace.

In Oregon this week there has been interest because of the wielding of the ax of the governor in the interest of the state and good government. The total appropriation has been reduced \$600,000, as much as the total tax a few years ago, and a stroke has been made along general lines in the interest of the rights of the people.

Congress is getting down to the end of the sixty-first term, third session, without having done much this session. Nor was it intended that there should be much done. It has been a Fabian policy affair. The result is practically the necessity of an extra session, something that should have been avoided.

Locally tax paying has been an interesting event, and everybody has been talking about it. Taxes are large, but they have to be. People have been demanding better roads and bridges, and they have been built.

Mrs. Jane Moist went to Lebanon this afternoon. Gus Adelberger, of Marshfield, has been in the city. Architect Wm. Hand went to Lebanon this afternoon.

PROTECT AND PAY.

The fourteenth anniversary of the Albany Elks, and the second of the new temple, was celebrated last night with an in-gather of Albany Elks and visitors, a large crowd being present to help celebrate the event.

With Gale S. Hill, exalted ruler, in the chair, an informal program was had, with remarks by a good many present, reminiscent and otherwise, giving the development of the lodge until it has a membership of between four and five hundred, and one of the finest Elks homes in Oregon.

Must Not Be Raised.

Washington, Feb. 23.—The Interstate Commerce commission has decided against the railroads in both the eastern and the western cases. The decision was handed down late today.

In the case involving increases by the railroads in the west trunk line territory, the commission also declined to approve the proposed advances in commodity rates. Carriers in both cases are required to cancel on or before March 10 their advanced tariffs and restore their former rates, which are the rates now in effect.

Can Have Lights.

General Manager Fisher and party, of the Oregon Power Co., yesterday visited Halsey, Shedd and Tangent for the purpose of furnishing lights for those places. If enough business can be secured in the different places to justify installing transformers the different places will be able to secure lights and enjoy modern conveniences.

THE L. C. H. S.

The Linn county Historical Society met at the Commercial Club rooms last night with President Stewart in the chair. Plans were discussed for interesting the people of the county through the newspapers.

The fourth Wednesday of each month was selected as the time for meeting. Dr. J. A. Hill, G. W. Wright and P. G. Franklin were selected as the program committee for the next meeting.

It was proposed that as many pioneer scenes as possible be secured, and Mrs. Franklin was appointed chairman of a committee. A suggestion meeting with favor was the having a Linn County historical day at Chautauqua.

CHAMPION H. S. TEAM

Of Western Oregon and Northern California.

The Albany high school basket ball team last night defeated Newberg champions of the west side, in one of the fastest games ever played here, 46 to 14. In the start Newberg set the pace and the score at one time was 9 to 4 in favor of that team.

MISFITS.

Come on Mr. Colonist.

Now is the time to fall in love.

The whole U. S. is advertising Oregon.

These are digging up times—for taxes.

It looks like a ragged paving district this year.

The spring time is here, so far as the weather goes.

What's the matter of a rose planting day in Albany this spring.

New York is being afflicted with an old-time senatorial election.

Japan is a great country and the U. S. should deal fairly with it.

7th street will not be paved this year, not a very good example for the other streets.

Gov. West's veto axe has not yet struck where it would make the tax payer shout.

Paroling prisoners sounds nice on paper; but in practice it generally gangs awry.

Russia and China are making up. Nicholas has evidently remembered his peace talks.

Scio News:—Doug Hamilton has concluded that Albany is not just the best place in the world to go to after all.

The Albany man running from taxes will not go to Portland, where they have increased 45 per cent in a year.

A state government should just attend to its own business and not spend money for everything Tom, Dick and Harry suggests.

As high as the Albany taxes are they are about the lowest anywhere. Prosperity has made the cities of Oregon go bond crazy.

Some one says that green car was sent from Eugene to Albany, because it couldn't go around the Eugene corners without going off the track, and here there is only one corner.

The Eugene papers emphatically declare the referendum of the U. O. bill by Cottage Grove as spite work.

A Portland minister declares that vice is worse since Washington's day. That is very doubtful. In proportion to the population there is probably more, but there were not the newspapers and telegraph to make it conspicuous.

The milliners at Chicago yesterday threw off the idiotic servility to Parisian fashion and declared that there shall be no more monstrosities in the U. S. It is time we broke loose from the barbarism of Europe and asserted our manhood and womanhood in the matter of fashions, being decent.

A fellow named Loftus took a ride into Chicago on a Pullman, using an upper berth, paying full price, and having a sleepless time of it. He went to a lawyer, had a complaint made out, and from this beginning the Pullman rate has been reduced 25 per cent, and the doings of the company ventilated, the evidence being that each car pays \$9,000 annually and porters get their pay from tips.
