B. G. Leedy, former master of the Grange of Oregon, and wife returned from Oakland, Calif, where they had been on a visit with Mr. Leedy's brother, having a fine time.
W. A. Ledbetter, the nursery stock salesman, went out to Tallman. He reported frait prospects remarkably good, there being a general opinion that this will be a good year, conditions generally being favorable.

This morning one of the biggest mails-ever received in Albany arrived, twenty-six sacks of paper mail alone and letters by the hundreds, from all over the east, delayed by bad weather niong the way. The force was kept busy cleaning up, and of course it took time, an enormous job. All the letters had to be stamped, but this is now done by the electric stamper and is much faster than formerly. Then they had to be distributed one at a time in the four sections, and taken from them to the boxes and general delivery. Twen-ty-six sacks of paper mail, including magazines, packages, etc. is itself a big thing to handle piece by piece, but this was done expeditiously. February Bowling. During the month of Fetruary the-highest bowler on the Alco alleys was Capt. F. C. Stellmachor with a record of 230. Chas. H. Stewart was second with 222, then b. D. Eusick 215, Harry Hawkins 213, Prof. Marquan 202, and G. A. Flood, Robney Me ully and Floyd Mason each 200. Mr. Flood, who was away during the month, only howled, two or three games. His bowl of 239-is the highest for the season.
