## MISFITS.

Albany needs six councilmen all the time.

When the politician runs things that means graft.

It's a tedious job, splitting hairs, and a foolish one.

Mexico and the U. S. are on good terms, each loaded.

Portland is about to have the agony of a majority contest.

What about that new city hall. Not a mention of it in the last city council.

Editors are the best of all boosters. declares the Portland Commercial Club.

There ought to be special laws against fraudulent promoters of any kind.

Washington has passed some road laws, the roads to be built by politicians, which of course will mean failure.

Between \$11 and \$12 a foot for 42 feet of pavement is a decidedly high price for road making as good a thing as it is when one gets it.

The Clelen corner suits people for an Oregon Electric depot. With a double track on the street the whole street really ought to be paved.

An inquiry was phoned into the Democrat office today for a pattern of a harem skirt. This was one case where the Democrat office was not equal to the occasion.

**Brownsville.**  
Condensed from the Times:  
G. W. Hector, recently in the second hand store business at Albany, has moved to Brownsville.

A base ball team has been organized with J. B. Cooley as manager, W. P. Yates captain.

## Careless Use of Matches Caused 1089 out of 5976 Fires in Chicago last year.

This illustrates one of the reasons why insurance companies advocate the use of Electric Light in preference to all other forms of illumination.

This is one of the many reasons why your home and your place of business should be Electrically Lighted.

It is true that defective wiring has been known to cause a fire, but where ordinary intelligence is used in handling electricity Safety is Certain.

Our New Business Department plans lighting installations free.
