PORTLAND AND THE REST OF US.

The splendid manner in which the Portland business men were received here, and the attention paid them, augurs well for the pleasant relationship between Albany business men and Portland business men in the future, as well as in the past, which is well. It is true the trip is made in the interest of Portland; but that is something not particularly serious with Albany, one of several small cities visited, as it has always been able to take care of itself in an interchange of benefits. Any movement looking to a closer fellowship among the cities of the state is commendable and deserves encouragement and a good word, as it passes.

The population of Portland is more than all the other cities of Oregon combined, built up to quite an extent by immigration from other cities of the state. Perhaps a thousand people in Portland have formerly resided in Albany, and every city can tell of many. Nevertheless, the smaller cities are also made up of immigration from the country and towns, so it is a matter in which all are striving alike, and we must take our medicine in the outcome whatever it is.

POOR ALARM SYSTEM.

Among several fire alarms sounded the past few weeks it is doubtful if a single one has given the box number correctly, causing confusion and uncertainty. The great thing in a fire is getting on the ground early, and also in not having an alarm from accident, always an expensive affair. Hence the alarm system, as well as the apparatus, should be kept in first-class order. Just now there doesn't seem to be much attention paid to it, no one taking the responsibility very seriously. This is one reason why in many cities people are looking to the commission form of government for relief. That makes the responsibility individual, and things are done, instead of being left undone.

Equalization Notice.

The County Board of Equalization of taxes will meet at the office of the county clerk, Monday, October 18, 1911, and remain in session for six days, for the purpose of publicly examining the assessment roll and to correct errors in valuation, description or qualities of land, lots or other property. All persons interested are hereby notified to appear at the appointed time and place and, if it shall appear to said Board, that lands, lots or other property be assessed twice, or assessed in the name of any person or persons not the owner thereof, or assessed under or beyond its value, or any land, lots or other property not assessed, they will make the proper correction. D. B. McKNIGHT, County Assessor.

The beauty of a carpet or rug is made or lost in the coloring, hence in inferior material can not produce a handsome and durable carpet. Look them all over and you will readily see why Park Mills carpet and Wilton & Brussels Carpet Co's rugs are so popular. We buy these fabrics direct from the mills and save you jobbers profits. We have floor coverings of all kinds suitable for every room in the house and have used just as much care in selecting for kitchen and bed room as parlor and living room. You will agree with us that "there is a reason" why Morris & Co's Cordeum carpets and the Inter State Fiber matting have been so well received. Estimates gladly furnished. FORTMILLER FURNITURE CO.
