The republican newspapers are almost in tears because J. W. Bailey will not be in the next senate. There will be no one to defend Lorimer then.

The Louisville Courier Journal has a three-column editorial on the soda water industry. Something new for Kentucky.

An editor never feels more important than when he is writing an able review of general financial conditions and trying to make it sound as if he had absolute mastery of the subject.

Foot ball practice has begun all over the country, but the diamond will crowd the gridiron off the bulletin boards until the base ball agony is over.

Venezuela is recruiting its army and expects to have it strong enough to carry the coming presidential election.

John D. Rockefeller's ancestor came over here in 1723, according to a recent rumor. We'll bet he immediately went to work.

In future we do not look upon the hobo as a tramp; he is a "migratory worker."

Now let us have a statue of the Kaiser Wilhelm and Colonel Rooseveltvelt together, posing as the doves of peace.

This country's bumper crops continue to bump all the substance out of the prognostications of the hard-timers.

For ambitious young talent that wants to shine at the New York bar there is no better law school than the United States Senate.

IN THE DEMOCRAT'S MAIL.

The mail of a newspaper contains a lot of stuff of all kinds, the seeking of publicity free, some of a character the newspaper is glad to publish, other purely advertisements. Here is a sample of a single mail:

A letter from St. Louis addressed to the automobile editor of the Democrat, whoever he is, telling of the St. Louis Festivities Oct. 1 to 8, when there will be automobile and flying machine contests galore. The promise is made that this article shall not be duplicated in Albany, and we present the awful copy, with three typewritten pages omitted.

Some of the Washington news telling about the farmers of Pennsylvania last year sold \$48,000,000 worth of potatoes in New York City, the people paying that much for them, of which the farmers got \$3,750,000 of the amount. It was also learned that a chicken for which the farmer got approximately 20 cents, was sold there for \$1, etc. That's an item with a point to it, one that makes the temper stable.

A communication from Kansas City telling of a meeting of democrats, in which every man at the conference reported his people unanimous for Woodrow Wilson for president and Geo. Hodges for governor. If Wilson is nominated the sentiment was strong that he would be elected.

Some articles from the American Economic League, evidently in the interest of the single tax. Some of the heads: Effects of land monopoly, The Tariff Board at Work, How courts protect minorities, The Lesson of a Crime.

EUGENE MAN SAW IT.

Guard: The city editor of The Guard was in Albany a few hours Sunday and noted many improvements in that city. The place seems to have taken on new life during the past year or so. Several miles of streets have been paved and at the present time four or five brick buildings are in course of construction. Included among them is a four-story brick hotel building, also a four-story bank building. Numerous residences are being built in various parts of the city. The people are confident that the coming of the Oregon Electric railway will further augment the growth of the city. The construction crews are now working close by.

A WOMAN MAN

Ray Leonard, who was taken to the asylum at Salem from this city yesterday, when examined at the asylum by the attendants, was found to be a woman instead of a man, as supposed. She had resided at Lebanon for 22 years, and had passed herself off for a man for 49 years without being discovered. She and her father run a shoe shop. He died eight years ago and she continued to run it, staying close to the shop. She smoked and chewed tobacco, and would never vote, though often urged to do so. She became insane, tore up her things, and was taken to the asylum, where the discovery was made yesterday afternoon, when she was found dressed. The woman is 62 years of age, and as she aged and talked like a man, though small, with very small feet, the discovery was never made.

She was a member of the Presbyterian church, a regular attendant, and has been well thought of.

None of us are good as we ought to be.

WEDNESDAY

RODE THE CAMEL.

J. C. Hammel, D. P. Gilbert, Geo. Taylor, Grant Pirtle and E. D. Cusick returned this morning from Medford, where some of them rode the camel through the hot burning sands of that tropical place, among thirty candidates to take the Shriner degree. It is not true that red hair turns white in a single night from the ride, as can be seen by eating at the Hotel Revere, or that a man loses half his weight, as can be learned at the St. Charles. The camel consisted of a long telephone pole that had been out in the rain all day and felt like a sponge in the thin clothes worn by the candidates, costumes of all colors and shapes.

But that was easy compared with the experience of the Medford and county officials, who were conveyed through the streets in a cage, and gayed to the limit because of their misdeeds including failure to have all the roads run down hill.

Medford is a live city, but Albany has the stability.

Married.

At the home of Mr. and Mrs. Chas. B. Reynolds, 1024 East First street, this city, Mr. Ora Bates and Miss Maytie Westcott, both of Lebanon. The wedding was a quiet one. The bride is the only daughter of Mrs. S. L. Goan, of Lebanon, while the groom is a son of Mrs. M. Bates, of near Lebanon. Mr. and Mrs. Bates will make their future home in Lebanon. Rev. Albyn Eason, of the Christian church, was the officiating minister.

Dr. Davis, county health officer, yesterday afternoon received from Dr. Calvin S. White, state officer, a report on the water at this city from five different places, showing the water to be pure and free from bacilli, 125 organisms in unfiltered water and only 40 in filtered, shows the difference, while in the Willamette there were 540 organisms per cubic centimeter found.

Mighty hard to be sweet with a sour taste in the mouth.

Out for business and a good time; the Portland bunch.

But the Willamette Valley must be great, for they all say so.

A package of lead slugs, used to beat out machines, left by one of the Portland men on the table at the army, is at the Democrat office.

AN AUTO STORY.

Bert Conner last evening was arrested by Constable Catlin, on a complaint, made by Mr. Malfait, of the Union Furniture Co., charged with the theft of an automobile. He has been working at the factory, and had run Mr. Malfait's auto some, but Mr. Malfait stated, had been directed to leave it alone. Monday evening he took it from near the factory, and rode around over town, and then across the river with a couple of others. Several times the machine bucked and he fixed it, and when across the river the gasoline gave out, and was all right trying to get it going, when he got some gasoline and got back to town, going to bed until taken charge of by Catlin in the afternoon.

Gov. West will make the mistake of his administration if he calls an extra session under any circumstances or promises at this time.

An editor can say anything he pleases about himself, and it is all right. The Corvallis G. T. says N. R. Moore howled like a Commanche Indian.

Seio organized the fair, after Albany had had years of opportunity to do so, with a fair ground almost idle, and is entitled to retain it, if she wants it. But it does need an er mighty bad.

Benton's Pride, the O. A. C., is kept up by the people of Oregon, and Linn county pays over twice as much annually to do so as Benton. Why isn't Oregon's pride, and as much one county's as another's.

The wool tariff bill vetoed by the president would have given the people of the U. S. woolen clothes at a reasonable price. The president knoeed the people to help a few, doing so on a childish excuse.

The commission system will eventually work into committee appointments, and there will be one man only, with authority to secure his own assistants, if he needs them. The average big committee is a good deal of a farce, a modern system of taffy, generally with not much done. Individual responsibility is necessary to obtain action. Calling committees together is much of a nuisance, where persistent, something that is being appreciated, and someday one man will do what several now generally half do.

A GREAT VICTORY.

James Rolfe, jr., was elected mayor of San Francisco yesterday by a plurality of about 27,000 over Mayor McCarthy, a great victory for righteousness. McCarthy had run the city in the interest of the saloon and gamblers, a wide open affair, and the people rose in their might against the domination of such an element. The coming of the big fair played somewhat of a part in the victory, the desire for a city that shall be a credit to the world, not a disgrace such as it has been under McCarthy.
