#### LINN COUNTY INDUSTRIAL FAIR.

To the Citizens of Linn County:

The boys and girls of Linn county are learning many valuable things at school. There are, also, many valuable lessons they may learn at home. To this end, I am planning for this county a contest in gardening, poultry, mechanical and general industrial work in the home. In many of the most progressive states the school children have greatly increased the wealth of the state. We can do the same in Oregon. May we have your support?

In doing these things the children will learn to respect labor, to use their hands as well as their heads, to make practical application of the things learned from their books, to see nature unfold, and to become successful men and women.

In order to encourage them in their work at home and in order to bring the home and school closer together, and to make them appreciate country life, believing that the country in Linn county is one of the best places in the world for boys and girls to develop, we have planned for an Industrial Fair to be held about the first of September. At this fair the children may exhibit the best of what they have raised or made. I believe that home work in co-operation with the parents will help to solve the problem of finding profitable work for the town boys and girls as well as for the country children.

The garden and animal competition is open to both boys and girls. Each is to do the planting and cultivating of the produce he or she exhibits. Prizes will be offered for the best of the following: field corn, sweet corn, pop corn, muskmelons, pumpkins, squashes, potatoes, cabbage, grain selections, bird houses, water melons, kale, labor saving devices, pieces of furniture, mechanical toy, bread, canned fruit, jelly, mending, darning, aprons, dresses, flower exhibits, chickens, ducks and pigeons.

The girl's skill in sewing is to be shown by exhibits of aprons, each apron being made by and for the girl exhibiting it, good work and neatness being the test rather than elaboration and costly material. In cookery each girl may exhibit one loaf of bread, one pint or quart of fruit and two glasses of jelly, or any or all of these. All work exhibited must be done by the girl without help.

For this contest the children will be divided into two classes, those twelve years and older and those under twelve years of age. I wish to say that contributions will be thankfully received, by the committee, from those who think this enterprise should

be encouraged and who feel that they can give something with which to purchase prizes. A number of prizes have been offered. The business men of the county will be solicited to offer prizes from their stock in trade.

A prize will be offered for the best miscellaneous exhibit by any citizen of Linn county. We hope to be able to report the prize list within a few days. We solicit the support of every citizen of Linn county in making the enterprise a success.

Very truly,

W. L. JACKSON,  
County Supt.
