

DEVELOPMENT NEEDED.

"Oregon is in a very unfortunate position on account of the fact that she has such limited knowledge of her geological resources," says Prof. H. M. Parks of the State Bureau of Mines, who is also head of the School of Mines at O. A. C. In the new bulletin on "The Economic Mineral Resources of Oregon," Prof. Parks makes the following startling and significant statements: "Oregon produced approximately \$4,000,000 worth of geological products in 1910. Oregon imported from other states and foreign countries more than \$12,000,000 of geological products in 1910. More than three-fourths of this amount imported could have been produced within her borders. More than \$1,500,000 barrels of Portland cement having a value of over \$3,000,000 were used in the Portland territory in 1911 and not a single barrel was manufactured in the state. Over \$4,000,000 worth of clay products such as brick, tile, pottery, terra-cotta and fire clay materials were used in the vicinity of Portland in 1911 and approximately \$1,000,000 worth of these clay products were manufactured within the state.

"Our neighbor states of California and Washington have been spending many thousands of dollars for a number of years investigating the mineral resources of their state while Oregon has been doing practically nothing in this direction. As a result investors looking to the Pacific coast for opportunities along these lines will naturally go where they can get reliable information as to the location and quality of the particular materials which they are seeking. The investor looking for an opportunity to locate a plant for the manufacturing of brick, tile, pottery, terra-cotta, etc., will not be attracted to Oregon on account of the fact that in our neighbor state of Washington he can obtain information from Prof. Shedd's "Clays of Washington" on the location and qualities of the clays which he is seeking, while Oregon has no detailed information concerning her clay deposits.

"The cement man will not naturally be attracted to Oregon as long as Oregon has no information concerning her limestone deposits while both the states of California and Washington are publishing information to the world concerning their resources along this line. Oregon has, without doubt, an adequate supply of cement materials, building stones, and clays for the manufacture of brick, tile, pottery, etc., but a very small amount of it is being made use of. Instead we are paying millions of dollars annually into the coffers of other states and adding to this a large tribute by way of transportation charges. It will be only when Oregon realizes these conditions that she will make her business to investigate the geological resources of the state and publish the same to the world."

THE EFFECT OF CIGARETTES.

There was a contest at the central building yesterday afternoon with four students, Miss Nellie Nicewonder, Frances Harrington, Bessie Huntley and Bernice Tinkle, on the program, presenting essays on the subject of narcotics, all excellent and well rendered.

The judges, Mrs. W. H. Davis, Mrs. A. S. Hart and Mrs. A. C. Schmitt, awarded first place to Miss Nicewonder. Here is the essay, one worth considering:

Our lives depend a great deal on our habits. Habits make or unmake men. The boy who starts with bad habits is almost sure to be a worthless man. One of the worst habits boys can indulge in is the use of cigarettes. Cigarettes deaden and dull all the finer moral sentiments; also they make a physical wreck of a boy or man. The cigarette weakens and demoralizes the body.

The users of the cigarette are the most helpless, and it also leads a boy into bad company. Our moral senses are weakened by the use of the cigarette. The cigarette kills ambition. It also causes discontent, nervousness, lying, stealing, cheating, and impurity.

Cigarette smoking also affects the heart. Every smoker shows it in his face, and in his...

Cigarette smokers are often very selfish, often taking the last cent for a package of smoking tobacco, and a roll of papers, while their wives and children are working for their living.

There is enough poison substance in two cigars to kill a toad, and to think that human beings are inhaling such poisons. Cigarette smoking is the royal road to the penitentiary, and is responsible for more crimes than any other thing.

Thirsty smokers are on the road to the saloon, and they are the saloon's best patrons. No user of tobacco ever graduated at the head of his class.

All the largest business firms, insurance companies and banking institutions in the U. S., will not have anything to do with the cigarette user.

Business men everywhere are forever refusing to employ a boy or man who smokes cigarettes, as cigarettes make a boy incapable of performing the best service.

The business men of our town know you better than your parents do. Their eyes are upon you when you are least aware.

You may slip away from your mother, you may dupe and deceive your best friends, you may elude the watchful eye of your teacher; but you can't fool the business men in your town when they have a position to be filled.

Cigarette smokers have a longing for strong drink. Cigarettes so lower the vitality of a man that he feels he must have something to make him feel conscious of fatigue.

Nearly all the boys in the reform schools are cigarette fiends. Large numbers in the asylums have been obliged to go there because of cigarette smoking.

Many go blind from this habit. I don't think cigarette smoking or smoking tobacco of any kind is good for the body.

Cigarette smoking makes the boys or men's teeth yellow and dirty, leaves an unpleasant odor in his clothes, a bad smelling breath, and yellow and dirty looking hands; and if anything is unmanly or impolite, it is to see a young man in a crowd of young ladies, puffing the smoke into their faces, and to see a young man walking on the street with a lady, and puffing and blowing the tobacco smoke into her face. We see this kind of work almost every day in the larger cities. Some boys think they haven't become a man until they have learned to smoke tobacco.

I do not think any man or boy that has any respect for himself, will ever use tobacco of any kind. We have a right to expect every boy to grow to be a good man. He must be clean, wholesome, decent, manful, cheerful, loyal to home and school. He must not be a coward, he must not be a bully or a sissy boy, but just be a man and a good citizen. Tobacco is a stinking weed, from the devil it doth proceed. It robs your purse, and burns your clothes, and makes a chimney of your nose.

ALBANY'S PUBLIC LIBRARY.

I am sure the Library Board wish to congratulate the friends of the library on securing from Mr. Carnegie a gift of \$12,500.00 to build a library building, and also Mr. and Mrs. S. E. Young for the beautiful lot on which to erect the library building, but we have felt, and many of the friends of the library have felt, that the amount contributed by Mr. Carnegie is not sufficient to construct a building suitable to the growing needs of our city, and Mrs. S. E. Young, feeling this very keenly and from a deep interest in the library, has generously offered to contribute to the library an additional \$2500.00 for the purposes of building, providing the citizens of Albany and the friends of the library will contribute an additional \$2500.00 for the same purpose. The ladies of the Modern Travelers who have in many ways proven themselves friends of the library have taken this matter up, and have appointed committees preparatory to asking our citizens and friends to assist in raising the necessary money to meet the conditions of Mrs. Young's offer of \$2500.00. We therefore request the citizens of Albany and the friends of the library to give these ladies sent out by the Modern Travelers a courteous hearing and as liberal contribution as your means will permit. If we all take hold of this matter and each contribute as he can afford, no more, the \$2500.00 can be easily raised and we will have a fine library building, one that will meet the needs of the city for many years to come and be a monument of praise not only to the contributors, but to the wisdom and learning of the city of Albany.

H. H. HEWITT, President of the Library Board.

TUESDAY.

IN EUGENE

As Observed by the Sage Rooster.

Eugene, March 4.—The home of the writer for several weeks has been a hospital, with each member a stockholder, now on their feet.

There has been no let-up in building in Eugene this winter, and many new business houses and residences have gone up.

The Oregon Electric has secured three half blocks on Fifth street for passenger and freight depots. There were about twenty buildings on the property, which is being cleared. The Company has about two miles of track laid from the city limits towards Junction.

There was a big blowout in Eugene Saturday. The Roosevelt republicans met and had a parade behind a brass band to the opera house, where a third term Roosevelt Dynasty Club was organized. What do you think of that? Did Roosevelt keep his word when he said he would not be a candidate? The rule of law is if a witness is false in one thing it must be considered that he would be in others. Teddy is guilty. When signers were asked for most everybody left, and only ten or twenty third terms were gotten.

SAGE ROOSTER.

Coming Circuit Court.

There are 60 cases on the docket of the circuit court to convene on Monday. On the list are 10 state cases: Oregon vs. Cain, Fisher, Merrill, Peacock, Senders, Westli, Yocubets. The O. E. has ten condemnation cases, being against Craft, Green, Henderson, Hulbert, Hyde, Irvine, McCartney (2), Porter, and Wilson.

Prominent cases will be M. Senders & Co., agt. the S. P., E. Willis agt. Gustav Rose, Holbrook agt. the Larnhaven Orchard Co., Christy agt. Cooper.

On a suit case at the depot this noon was noticed the following hotel stick, entitled to a place in this midst column: Adams-Boos Hotel \$2.00 a day. Good Enough, Cedartown, Ga.

SCHOOL OFFICIAL CONVENTION.

Gov. West and Supt. Alderman Make Speeches.

The annual convention of school board officials was held today at the court house, with the circuit court room filled. Supt. Jackson presided.

In the forenoon the following questions were discussed: Rural supervisors, by Supt. Jackson and Supervisors Bolin and Benner, giving a good idea of the excellent work done.

How to employ and keep teachers, led by A. C. Schmitt in an able manner. How can the school be made to serve the district better, discussed by Hon. J. M. Philpot, J. W. Fugh, Tom Froman, Henry Dittmer, Z. L. Brown and others, bringing out some strong suggestions for improvements of conditions.

This afternoon the girls glee club of the high school made a hit with a live song, followed by Gov. West, who spoke on state affairs. A plan to be put into effect by the state board will be to secure data from all state institutions in September, and later before election publish them with the needs of the institutions, informing voters of probable legislation, now neglected. It is proposed to make the penitentiary self-supporting. The Governor presented his prison policy candidly and convincingly.

He was followed by Supt. Alderman on industrial fairs, which he is bringing to the front, a fine thing.

Then came more talks by the directors and clerks.

HERE BOOSTING THE POTLATCH.

E. L. Warford, advertising specialist, has been in the city boosting the great

which has become the annual event of greatest importance at Seattle. He declares that the one this year will far surpass that of last year, which attracted wide attention. Mr. Warford is also doing some special work for the land show at Los Angeles beginning the 20th of this month, getting as many as possible of the Oregon commission to San Francisco to also go there.

New Suit: A. W. Roth and Geo. Edelman, real estate dealers agt. A. Kamle, to recover \$275. The case is a sensational one. According to the complaint Kamle wanted a farm, and that of J. M. ON STANFORD'S DEBATING TEAM.

Miss Lucille Hart, of this city, has been honored by being elected to a position on the debating team of Stanford University, besides being elected secretary and treasurer of the team. On account of her studies she proposed to keep out of debates; but her splendid attainment in this line demanded her presence on the team. This team will debate the University of California, a big event in the two colleges.

DEATH OF HENRY CONNER.

Henry F. Conner, youngest son of the late John Conner, died in Berlin, Germany, last Monday at the age of 39 or 40 years. He was a cousin of H. F. Merrill of this city.

He was born in Albany at the present site of the home of D. O. Woodworth, formerly the Conner block, going to Portland with his father, when a boy. He attended school in Portland, and then went to Yale, where he graduated. After being admitted to the bar he practiced law in Portland. Two years ago he went to Berlin.

Prof. Kent Spoke.

Western Star Grange No. 309 held a special meeting on March 2 for the purpose of discussing the proposed oleomargarine and good roads laws.

There were a good many members present and several visitors, among them W. K. Taylor of Corvallis, and A. Rievin of Tangent. Prof. Kent of the O. A. C. was also present by special invitation, and after dinner gave a very interesting and instructive talk on oleomargarine. A speaker from Portland was expected to talk on good roads but he was unable to come. There was, however, quite a little lively talk by those present.

Albany's mayor weighs nearly as much as the mayors of Eugene and Corvallis combined.

MISFITS.

Teddy R. is all tangled up. Mental X Rays are needed. Now for a city hall this year. Roosevelt doesn't stand a ghost of a show. The spoiled children are always elsewhere. Register and get the job off your hands. Let's have a straight Albany, no east or west end. Rushing into print is often rushing into disaster. Why more candidates for sheriff than anything else. The big storm didn't cross the country. Thanks. Inauguration day a year from today. Whowill it be? Merit will generally get to the stop without a jackscrew. Just about half the people are behind time, on the average. Will Albany have an O. E. train service by the 4th of July? This is no longer a government by the people, but by the politicians. When this campaign is over T. R. will be in a condition for another lion hunt. Bet Satan hasn't any real horns, but comes nearer looking like a N. Y. 400'er. Mutt did a new snipe act on Jeff yesterday and he was drowned. Hope that's the last of him. Mrs. Schumann-Heink would like to eat Teddy R. she loves him so wolf. Bet there would be an awful grumble to her digestion for a long time. The real smart set of N. Y. has been figured down to just 460; but as a matter of fact there isn't enough real smartness in this set to make an almanac, just snobbishness and lucre aristocracy. In seventeen years the supreme court of California has decided 79 Southern Pacific cases, of which 57 have been in favor of the railroad. The railroad has evidently been in politics somewhat. A series of articles by C. P. Conolly on Big Business and the Bench, in Everyboddy's is attracting a good deal of attention. It indicates a corrupt bench in many states and must make friends of the recall of judges propopation. The suggestion of Mayor Gilbert that the central school building property be bought for a city hall and small park site is a splendid one, which will undoubtedly meet with general favor. Close to the court house and new post office the location is a good one. You lose money when you neglect buying shoes at Burns Shoe Store. Largest assortment at cut prices. Elk skin shoes, green, all colors and kinds for men and boys.
