## THE WORLD

Douglas county is the first to pay half of its state tax this year.

McMinnville is getting up in the world. It has had a society circus.

Hon. Binger Hermann is the new exalted ruler of the Elks of Roseburg. Washington, Idaho and Montana yesterday selected the sites for their buildings at the Panama fair.

Burt Burdick has been elected captain of the O.A.C. basket ball team for next year. He is lightweight, only 115 pounds.

Jefferson Review:—Potatoes are all the same as bank checks these days. W. A. Kothoff has during this week bought four cars at \$1.93 per bushel.

A young man at Pasadena, said to be heir to \$8,000,000, had a lapse of memory and attempted to rob the house of Mrs. Jack Cudahy. He may now lapse into the pen.

Prof. J. B. Horner, of the O.A.C., has accepted an invitation to give his European lecture, with pictures before the Mental Culture Club, of Roseburg, once his home.

Mrs. Isaac Saltmarsh, an old resident of Lebanon, died this week at the age of 89 years. Mrs. Frank Hardman, of Portland, is a sister, and she and Mr. Hardman passed through the city for Lebanon to attend the funeral.

The report of the U.O. registrar shows that the women lead in percentage. The girls of the U.O. dormitory stand highest with an average of 88 per cent, while the boys of Lawah Club are lowest with an average of 79 per cent, and the famous Sigma Nu just a little better with 82 per cent.

Brownsville Times:—Hugh G. Fisher, city engineer of Albany, was in the city Friday and attended the mass meeting at the tabernacle, where he spoke along the lines of street improvements. Mr. Fisher came to Brownsville from Halsey, where he had been summoned to consult with the authorities of that place on some proposed street improvements.

## AT THE SITE OF THE O. E. DEPOT.

The old residence of John Clelen, on the Oregon Electric block, near Lyon and Fifth street for forty or more years, is being moved down to Third street in the third ward, where it will have a new home. This means that the Oregon Electric wants the block for the passenger depot, to be erected there this spring preparatory to active traffic. There have been rumors that the site of the depot might be changed; but Fifth and Lyon is where the structure will undoubtedly stand, a good place for it altogether.

It is said the Fifth street track will be completed before the Water street track, and for that reason an ordinance has been asked permitting freight cars on Fifth street. If passed it should have a limit, terminating absolutely when the Water street track is completed.

## P. O. BILL

### APPROVED.

A dispatch in last evening's Journal from Washington states that the Senate committee, of which Senator Bourne is a member, has reported favorably on the appropriation of \$10,000 additional for the completion of the post office building at this city, and it will undoubtedly pass, when the bid for the present plans will probably be accepted, and work proceed.

This will make a total appropriation of only \$75,000, where \$100,000 is now being asked for cities of like class. It is small enough, it fact should be \$100,000, instead of \$75,000.

## No-Rim-Cut Tires lower tire bills half.

Ordinary tires—clincher tires—cost too much.

They are subject to rim-cutting. Research proves 23 per cent of all ruined clincher tires are rim-cut. This is an unnecessary expense.

Clincher tires are usually overloaded. The rated capacity is not sufficient to carry the load.

Goodyear No-Rim-Cut Tires cannot rim-cut. No hooks are necessary on the base to hold the tire to the rim. Tapes of 126 braided piano wires are vulcanized into the base, making it unstretchable.

The rim flanges are reverse—the

hooked side turned from the tire-rim-cutting is not possible.

This construction permits making the tire 10 per cent over-size, yet fitting the rim. That means 10 per cent more air—10 per cent more capacity to carry the load—preventing blowouts. These two features save half an owner's tire bills.

Do you not see why we are so enthusiastic about Goodyear No-Rim-Cut Tires?

Call and let us show you the tires. You will see them.
