#### WE MUST HAVE A Y. M. C. A.

The people of Albany favor the establishment of a Y. M. C. A. here, a brand new one, with a modern equipment, no warmed-over affair; but one of a scale that shall count. It isn't necessary to create a sentiment here. It is already established. The great question is how it can be done, without being made a burden to our people, already having their hands full of enterprises. The way to do a thing is to do it, and that is the manner in which the Y. M. C. A. will be established. It will take some big subscriptions and then a long list of smaller ones. At the proper time our people will be equal to the occasion, as they have been in the past. The Eugene man who said that the Y. M. C. A. is the biggest asset in the city, made a remark suggestive of the value of such an institution, and calling for sacrifice in order to secure it. Preparations should be begun this year to push it next year definitely and aggressively. It can be done.

#### BITULITHIC PAVEMENT SATISFACTORY.

#### Officials and Property Owners Alike Recommend It.

There is no more satisfactory way of judging of the merits of any particular kind of pavement than to compare the amount laid year after year in the various cities where the pavement is subjected to all kinds of conditions. The varying climatic conditions of the United States and Canada, from El Paso, Texas, on the south, to Edmonton, Alberta, on the north, and from Atlantic City on the east to Portland, Oregon, on the west, afford a severe test.

Officials and citizens alike, in over 250 cities of the United States and Canada, recommend bitulithic pavement, where this class of pavement has been in use and the number of yards laid and contracted for has increased at a phenomenal rate during a period of ten years. Cambridge, Mass., an extreme eastern city, shows an increase of approximately 110,000 yards since the year 1901, and Portland, Oregon, an extreme western city, shows an increase of 1,500,000 square yards in a like period.

Throughout the United States the progression of a city can almost be determined by the use of bitulithic pavement. Information gathered from city officials and unprejudiced business men in the various cities concerning bitulithic pavement, entitles it to first consideration because of its many admirable qualities.

SEALED PROPOSALS addressed to E. E. Wilson, secretary of the Board of Regents, Oregon Agricultural College, Corvallis, Ore., will be received by the said Board of Regents until 8 o'clock p. m. March 29th, 1912, for the furnishing of all material and the performance of all labor required for the erection and completion of the Mines Building for the Agricultural College, State of Oregon. All bids to be endorsed, "Proposal for the Mines Building." Said proposals to be opened upon the above date by the said Board of Regents. All work and material must conform to the plans and specifications therefor on file at the office of the College, Corvallis, Ore., and of the architects, Bennes and Hendricks, 400 Henry building, Portland, Ore. Each proposal must be accompanied by a certified check of five (5 per cent) per cent of the amount of the bid, as a guarantee, that the successful bidder will enter into a contract according to said plans and specifications. Said check payable to the Oregon Agricultural College. If for any reason the bidder fails to execute the proper contract and bond required within ten days after notification of the acceptance of his bid, then said check will become forfeited to the Oregon Agricultural College.

### IN THE MAIL.

A note telling about transformers to reduce voltage, a life-saver.  
A letter from N. Y. urging laws making it a felony for a man to carry a revolver who has ever been convicted of a crime. Worth thinking about. So many hold-ups the insurance companies are frightened.  
Some Munsey clippings, about flies, Roosevelt, whom the magazine favors, parcel-post, etc.  
From Portland about a movement to stimulate flax culture in Oregon. Albany once tried it many years ago, raised the flax and had the factory, likewise the experience and the empty pocket-book. Nevertheless the flax culture deserves a hearty support and promotion.  
From the Pacific Highway Association about good roads, and particularly the convention to be held at San Francisco Aug. 5-7.
