### AN AUTOMOBILE EXPLOSION

#### A Short Circuit Causes Trouble.

C. Ball, driver, of Portland, and N. J. Cornall and W. H. Jewett of Gardiner, met with a live experience last evening. They came up from Portland in a new Chalmers car, stopping at the Hotel Revere, leaving in the evening for Corvallis, their destination. Out of town a ways a short circuit made things pop, causing a bad explosion, setting the car on fire. Mr. Ball had a hand burned some, and the car would have been destroyed but for prompt work by all three men, who succeeded in extinguishing the flames before they had spread much. The result is a scorching in one corner, without very much damage. The car belongs to a friend of Mr. Ball. It was taken down to the O. C. T. wharf for shipment to Portland for repairs.

### NARROW ESCAPE FROM FOREST FIRE

By a Family on 'amil:

Fred Cunningham and his family this week had a narrow escape, up on Hamilton Creek, at their home. The woods got on fire around their home, and was spreading fiercely towards their house, where they were hemmed in. Mrs. Cunningham sent frantic appeals for aid over the telephone, and a crowd of sixteen men hurried to her aid. Her husband was getting his cattle to a place of safety. It took the fire fighters two hours before they had the family saved. Some fire patrol men are accused of being to blame, it being charged that they constructed fire breakers and set several fires in dry places. Supervisor Marrs is specially blamed for permitting the fire, and according to the report the people will hold the Fire Patrol Association responsible for the fire.

### CLOSE CALL AT CAMERON MILL

This afternoon fire caught in some shavings at the Cameron planing mill near the dry house, and the flames were leaping high close to combustible matter, when the fire alarm was sounded. #### The Coming Carnival.

While the Frank Miller Amusement Company is not heralded as the largest concern of its kind and character extant, it does claim, and that too with considerable degree of apparent reason, that it is one of the best and cleanest concerns in the field of tented amusements, and it is only fair to state, evidence is not lacking to support the claim that it is as good as any, and better than many traveling carnivals organizations known to amusement patrons of this section.

Even those who are prone to repudiate amusements of almost every kind and character are forced to a realization of the fact that there is a large and a legitimate field for amusement features of the Miller type, which are aligned squarely on the side of respectability and decency. Don't overlook the dates, May 28, 29, 30, 31, and June 1st, and no not forget that a very substantial percentage of the gross receipts will go to swell the maintenance fund of the local fire department.
