ONE DIES EVERY SECOND.

Here are some interesting facts about the people who compose the population of the world:

There are 3,054 languages in the world, and its inhabitants profess more than 1,000 religions.

The number of men is about equal to the number of women. The average of life is about thirty-three years. One quarter die previous to the age of seventeen. To every 1,000 persons only one reaches 100 years of life, says the *Golden Argosy*. To every 100 only six reach the age of sixty-five, and not more than one in 100 lives to eighty years of age.

There are on the earth 1,000,000,000 inhabitants of these 38,033,033 die every year 91,824 every day, 3,730 every hour and 60 every minute, or 1 every second.

The married are longer lived than the single, and, above all, those who observe a sober and industrious conduct. Tell men live longer than short ones. Women have more chances of life in their favor previous to fifty years of age than men have, but fewer afterward.

The number of marriages is in the proportion of 75 to every 1,000 individuals. Marriages are more frequent after equinoxes—that is, during the months of June and December.

Those born in spring are generally of a more robust constitution than others. Births are more frequently by night than by day, also deaths.

The number of men capable of bearing arms is calculated at one-fourth of the population.

Ladies, do not ruin your complexion by the use of poisonous cosmetics and face powders. If your face is red or sunburned, if you are so unfortunate as to have pimples or blotches on the neck and face, Duffard's Specific will not cover them like a coat of paint but will most effectively remove all blemishes from the skin and restore them to its natural youthful bloom. I'm jolly and fat, though I needn't say that; for a glance at my size and a look in my eyes, and you plainly can see there's no lies upon me. I'm a little bit short both of breath and of hair, but from shoulders to knees you can see I'm all there. I smile and I laugh, I joke and I chaff; I refuse to be sad and I never get mad. But you'd never surmise where my happiness lies, so I'll up and confess what you never could guess. A good thing to eat is always a treat, which will make you as sweet as our sugar cured meat, makes you feel so content with the money spent that you're bound to feel glad; and you couldn't get mad though a man just as thin as a rail or a pin was to pull at your nose or tread on your toes. If you're fat or your'e lean, if you're pleasant or mean, just give W. & T. a show to sell you right low, you will feel such a thrill of contentment until you'll wish you were fat to enjoy more of that For the feeling's slow your good sense by buying groceries, pro crockery
