THE PRESIDENT'S MESSAGE.

Congress met last Monday when President Cleveland sent in his message. It is an able document. Its ringing words on the tariff question are proof in themselves that their author is a brave, courageous, conscientious man. The plea in behalf of such legislation on that subject as will insure to the benefit of those least prepared to bear the burden of taxation shows that whether in power or out of power he will stand in the fore front of the coming contest between the labor and agricultural people on the one side and the combined forces of protected monopolies and trusts on the other. No man in all this land has so endeared himself to those who believe that trusts and combines should be controlled by the will of the honest masses, crystallized into law, than has Grover Cleveland, and the time is not far distant when a large majority of the people will do him ample justice for his disinterested, manly course. That the tariff question was settled by the late election are simply words of folly and nonsense. Such a vital question is never settled until it is settled rightly. The contest will not cease. It can not cease until justice is done to an overburdened people. Taking this view of it the president says: "The existing evils and injustices should be honestly recognized, boldly met and effectively remedied. There should be no cessation of the struggle until a plan is perfected, fair and conservative toward existing industries, but which will reduce the cost to consumers of the necessities of life while it provides for our manufacturers the advantage of freer raw materials, and permits no injury to the interests of American labor. The cause for which the battle is waged is comprised within lines clearly and distinctly defined. It is the people's cause." These are the manly words of a bold conscientious leader.

Tangent.

According to previous announcement many of the citizens of Tangent and vicinity and several friends from a distance met in the church house in this place last Friday afternoon to consider the feasibility of locating and building at this point a District High School for the Willamette District. As best we could gather from the speakers, it is the custom of the church to build in each Presiding Elder's District in each Conference a High school both to furnish local opportunities for advanced education and also to prepare those who may desire to enter College classes for ultimate graduation. This is one of several they intend building in the State as preparatories to their College at Corvallis. We hope they may succeed as such schools are much needed at many points in the State. The meeting was addressed by quite a number and the subject of higher education fully ventilated and a committee was appointed to select location and solicit subscriptions. The friends of Corvallis Agricultural College seem to express no surprise or joy at the decision of the Supreme Court of which Judge Bean's decision was set aside.

New States.
WASHINGTON, Dec. 4.—The democrats in the house propose to make the admission of the territories into the Union their first care at this session. Cox, chairman of the democratic caucus, will call a caucus some time this week, probably Wednesday or Thursday, to arrange the order of business. Mr. Sringer will argue that all the territories be admitted at once, according to the provisions of a bill which he reported from the committee on territories last winter. This bill admits the whole of Dakota as one state. There are some democrats of whom Mr. Cox is one, who favor the division of the territory, the admission of South Dakota and the organization of North Dakota as a territory.

A Majority Should Rule.
WASHINGTON, Dec. 4.—Representative Stone of Kentucky to-day introduced a joint resolution proposing an amendment to the constitution, providing that the president and vice-president shall be chosen every fourth year by direct votes of the people. One section of the bill forbids the holding of any local or state elections, except for members of congress, on the day set apart for the election of president and vice-president. Elections for president and vice-president are to be held on the first Tuesday in November.

A Newspaper Scheme.
WALLA WALLA, Dec. 4.—The East Oregonian, a newspaper printed at Pendleton, will shortly issue a Walla Walla edition, having a local editor here who will telegraph local news over daily. It is proposed to deliver the paper with full telegraphic service here at 4 A. M.

West Virginia.
CHARLESTON, Dec. 4.—Leading democrats have practically conceded that the recount shows an apparent plurality for Goff for governor, but have fully decided to contest the election before the legislature, however, on a claim of fraud.

Dandruff is probably one of the most difficult diseases of the scalp to cure, but Dandruff's Specific never fails to remove it permanently. Soreness after shaving is instantly relieved by its use.

For weak and delicate women nothing builds up the entire system more thoroughly and effectually than Oregon Kidney Tea. It is especially adapted to diseases peculiar to the sex, is pleasant to take and in every instance proves of great value. Oregon Kidney Tea is composed of herbs found in Oregon, is put up in neat tin boxes, and can be prepared fresh by simply steeping in hot water. It contains no mineral substance what ever, is pleasant to take and never fails to cure kidney or urinary troubles.

Highland, Clackamas county, Or., March 20.
I have suffered with a disease of the kidneys for 6 or 7 years and for the last two months have been laid up with a pain in my back. A friend sent me a sample of the Oregon Kidney Tea, and having used it one week I can do a good day's work. I have derived more benefit from it than from all the medicines I have ever taken.
