### GOLDEN RULE BAZAAR.

Cash Goes a Long Way at Julius Gradwohl's

I have made arrangements for buying goods direct from the factories in Europe, and will sell at wholesale or retail, cheaper than any where else on the Pacific Coast. The following are some of my cash retail prices:

- 1/2 dozen unhandled tea cups and saucers, 35 cts.
- 1/2 dozen unhandled coffee cups and saucers, 45 cts.
- 1/2 dozen handled coffee cups and saucers, 50 cts.
- 1/2 dozen seven inch dinner plates, 45 cts.

These goods are all iron stone China and not a cheaper grade of goods. These prices are for 30 days.

JULIUS GRADWOHL.

### Carpets.

Cheaper than you can buy them in Portland. Will sell a good grade of Brussels carpet for 60 cents; a heavy three ply carpet for 75 cents, and two ply carpets from 40 cents to 50 cents. Carries a large line of oil cloths, linoleum and window shades.

### POPULAR SCIENCE.

According to the statement of a Brazilian physician in Nouyeau Remedies, flies are most active agents in the propagation of yellow fever. Other authorities hold these little insects largely responsible for the spread of pulmonary consumption and cholera.

Among the curious facts brought out at the late congress on tuberculosis was that persons who have had the smallpox are peculiarly liable to tuberculosis. M. Landouzy stated that for this reason persons pitted with smallpox should never be employed around the tuberculous wards of hospitals.

A German patent has been issued for the preparation of wood fibre for spinning. The fibre is separated in the first place by boiling in a sulphurous acid or bisulphite solution, and the fibres are dried and softened in water and subjected to sundry mechanical operations. Strong fabrics are made from the product.

Iron, when heated, bends very readily under weight, so that it cannot be considered the best of material for fireproof buildings. Stone, and especially granite, is very little better than iron to withstand the ravages of fire. There is no material, according to the best fire insurance authorities, that can be used for construction equal to brick. It is the opinion of both insurance men and heads of fire departments that brick has stood the test better than any other material.

### The Democrats Ready to Go.

WASHINGTON, Dec. 13.—It is stated here that democratic office holders, as a rule are not asking or expecting much favor from the incoming administration. Indeed, so many of them are making arrangements to go into private business at once after March 4 that Gen. Harrison may be embarrassed by more vacancies that he can at once give attention to filling.

### Mitchell Mentioned.

CHICAGO, Dec. 13.—A special bit of gossip regarding the next cabinet came from one of General Harrison's friends to-day and relates to the recognition the Pacific coast will probably receive. There are various reasons for the belief that one of the administration advisers will represent that section, and according to the gentleman whose views are followed, the honor will not, as everybody has supposed, fall on a California man, but Senator Mitchell, of Oregon, is likely to be the choice of the president-elect.
