DOLPH THE MAN.

Special to Democrat.

SALEM, Jan. 22nd, 1 p. m.—In House on first ballot Dolph received 46, Pennoyer 9, George H. Williams 2, cast by Stafford and Jennings, Thomas Condon one by Paulsen. Absent Ladd. In Senate Dolph 21, Pennoyer 9.

RAILROAD MEETING.—The adjourned railroad meeting was held at No. 1's hall last evening, S E Young in the chair. Mr H H Hewitt, of the committee on articles on incorporation read those prepared. Under their name of the proposed railroad shall be the Albany & Astoria R. R. Under its provisions Albany shall be its principal office, and the road shall be built from this city, by way of Tillamook, to Astoria. The amount of capital stock and number of shares was on motion left to the incorporators of the company. The following were, on motion of C H Stewart, appointed incorporators: J L Cowan, S E Young, J A Crawford, L Flinn, John Isom, R S Strahan and M Sternburg. On motion of Mr Stewart the committee was directed to prepare three copies of the articles for the use of the incorporators.

A NEW PLAN.—The following plan for making church sociability spicy and enjoyable, has been put in practice in some places: "Each person is given a card on which a dozen names are written and he or she are required to talk five minutes with each one whose name is on the card. At the expiration of five minutes a bell is struck and a new person is sought. By this plan wall flowers are made at home, cliques are broken up and all go home happy." While this plan might not be agreeable to some of the most love sick members of society, it would strike most as about the proper thing.

LEFT FOR PORT TOWNSEND.—Mr. Alex Cunningham and family with their horses and furniture, left Albany this morning on the steamer "Occident" for Port Townsend, W. T., where Mr. Cunningham has purchased a half interest in a blacksmith shop. They intend making that their future home. They have resided in Albany since 1878. Mrs. Cunningham who has been visiting at her former home in Chicago will soon join her family in their new home.

CREAMERIES.—Mr B Mahanna, agent for Davis & Rankin, manufacturers of creameries and cold storages, left Albany last night for Eugene City, without making a canvass here for a creamery, though he may come back and do so in the future. He got pretty weary over at Corvallis, and thinks they need some electricity generally. These creameries are important industries, and for farmers offer a fine field for making money outside of wheat raising. P. S.: He didn't leave, and is working up the matter for this city.

TWO SIDES.—Like all other matters there are two sides to this dago trouble. One side—No one has a right to take the law into his own hands, however much he has been injured. Another side—If a man works hard he wants his pay for his labor. In dealing with men who do not understand our language and will not reason, precautionary provisions should be made before hand to prevent unpleasant episodes like the one in this city.

DECEPTIONS.—For the benefit of job painters and newspapers it may be remarked that the article called "Inkoleum" is simply kerosene with the smell disguised. Try coal oil, it is just as good. Speaking of deceptions, coping ink can be made by simply adding a fourth part of glycerine to common writing ink.

100 TICKETS.—To day Agent Jester sold one hundred tickets from this city to Portland, the biggest sale ever made on straight tickets to that city in a day. Most of the purchasers were Italians, who having got 90 per cent. of their money were leaving for other fields.

We will sell you groceries cheaper than any one else. BROWNELL & STANARD.

FRIGHTFUL ACCIDENT.

Yesterday forenoon John Huddleson and Joe Klum, two young men, residing a few miles from Lebanon, were hunting deer, with several others, in the foothills beyond Waterloo. They were occupying a stand together, when, about ten o'clock, their dogs drove up a deer. Just as it came in sight Klum raised his gun to fire, but, being wet, it slipped sideways and was discharged just as it came in range with the head of Huddleson, who was standing near him. Loaded with buckshot, all the contents went into the victims head, shattering it in a fearful manner, causing immediate death, Huddleson only living a short time. He was taken to his parents, a spectacle to shock any one, much more parents and brothers and sisters. The deceased was about twenty years of age, and was a young man highly respected by those who knew him.

A BAD MAN.—After some deliberation we have concluded to pronounce one E. Sullivan a very bad man, more than ordinarily so. Saturday after a bloody resistance he was taken to the calaboose. Monday he was again incarcerated for being drunk and disorderly, but was allowed to depart on condition that he leave the city. He left but returned. About three o'clock this morning he entered the Depot hotel and going up stairs broke into rooms promiscuously, finally getting into the head cook's department, where he was trying to get into his trunk when he was frightened away. Casper Vordian, the good looking clerk, followed him up and near the depot succeeded in capturing him after a desperate fight, in which Casper came out on top. He was placed in the jail, where Justice Humphrey says he may remain in default of bail, until the Grand Jury convenes in March.

CROOK COUNTY.—Gus Allen was arraigned in Justice Luckey's court last Tuesday on a charge of horse stealing, but was discharged. The trouble grew out of a similarity of brands, one being a figure 3 and the other 67 connected which were somewhat similar when put on the animals in controversy. One year ago there was a foot of snow on the ground, and the thermometer registered 40 degrees below zero. To-day there is scarcely any snow and the temperature would do first rate for spring. All but about fifteen of the Indian men on the Warm Spring reservation signed a petition to have Jas. C. Luckey appointed agent, and a majority of those who did not sign it were only prevented from doing so by being absent from the reservation when the petition was being circulated. Postmaster Moore has declared his intention to resign the Prineville postoffice is attracting some attention from the would-be "Nasbys." H. A. Dillard and Mrs. Ollie Waller are both mentioned as suitable persons for the position.—Ochocho Review.

WANTED TO DIE.—Two or three weeks ago Mrs. Barnes, daughter of Mr. William Scanlon, residing a few miles from Lebanon, came from Kentucky to her father's home, with whom she took up her residence. Her husband remained in Kentucky, and it seems that there had been a family trouble, causing them to separate, as nearly as we can learn. She was despondent after her arrival, and finally yesterday tried to shuffle off life's miseries and her sorrows in particular, by taking morphine. On discovery of what had been done a physician was sent for, and offered the poor woman relief. At last reports she was alive with good prospects of living. She claims that she did not intend to commit suicide.

A KICK.—The following is what a correspondent from Tallman to Salem has to say about the N. G. road: "How much longer do we have to endure the go-and-come-as-you-please way the Narrow Gauge railroad has of carrying the mail? Very often our paper does not reach here till Monday, with a mail train passing here twice a day on the O. & C. We have to depend on the Narrow Gauge for our mail, and they are always here when they get here.... Grain looks well considering the freeze."
