LOCAL RECORD.

JOE ON TOP.—"Whenever a prospect of 'short copy' confronts the local scribe, he turns his eyes toward Gervais for something to help him out. And he usually gets it. Yesterday the excitement there was a knock down of McKinley Mitchell, the most prominent merchant of the place, by Joseph Purdom, justice of the peace and railroad agent. The trouble is said to have arisen over the matter of shipping freight, about which a dispute arose, the life was passed and Mr. Mitchell knocked down. Mr. Purdom being the justice of the peace, Mr. Mitchell came to Salem and swore out a warrant for his arrest in Justice Chase's court on a charge of assault and battery."—Salem Statesman.

SWORE POSITIVELY.—"W F Butcher returned from his trip to Kansas on last evening's train, happy in the knowledge that a jury of his peers awarded him \$6000 for being suspected of being a mule thief by an all too officious sheriff. Sheriff Hedrick's attorneys have filed a motion for a new trial, but it is not believed that it will be granted. Eight witnesses brought in by the defendant swore point blank that Butcher was really Gordon, the mule thief, but on a thorough cross-examination their evidence was totally discredited."—Pendleton E. O.

INCORPORATED.—Articles of incorporation were filed with the Secretary of State to-day incorporating the Albany Iron Works. E. F. Sox, Jos. Watson and Gus Costel are the incorporators. Business will be done at the J. G. Cherry foundry. The capital stock is placed at \$10,000. Members of the Company inform us that they already have a large amount of work on hand, and that the prospect is good for a steady business. The plant is a good one, and there is no reason why there shouldn't be as much foundry business done here in the future as in the past.

COMMON DRUNKS.—The town council of Prineville has placed the following named persons on the "common drunk" list. A B Conley, Mark Jones, Tom Payne, Henry Stroud and S. Sullenberger. The saloon men of this town will have to sharpen their well-worn augurs to "stand off" this crowd, but they will try to be equal to the emergency.—Prineville News. Several in Albany who would grace such a list pretty well, and it wouldn't be a bad idea for our Council some day to put a tag on them.

BURGLARY.—Last night on retiring Doc Conn, who lives on Third Street left his clothing in the sitting room on a chair. In the night a light-fingered gent opened the front door, went in and extracted a watch from "Doc's" vest pocket, but retired without examining the pants pocket, in which was \$25 in coin. It is supposed the burglar became alarmed and left hurriedly without looking into the pants pocket. "Doc" knew nothing about his loss until morning.

CREAMERY MEETING.—To-night at 7:30 o'clock a citizens meeting will be held at the real estate office of Curran & Monteith for the purpose of considering a proposition from Mr. B Mahanna, representing a large eastern firm, for establishing a creamery and cold storage here. The matter is an important one, and our citizens should turn out to it. Albany has reached a period when it must keep its hands to the plow.

SHAKE.—It does one good to see two friends meet and have a hearty shake. The two gents that met yesterday on First street, shook so long that a bystander asked them what was up. They replied that they were congratulating each other on having found the cheapest place to buy groceries at the Willamette Packing Co.'s store.

BURGLARY.—A drummer at the Revere house last night left his door unlocked, resulting in a coat, vest and valuable gold watch disappearing. No clue was obtained to the burglar.

CURIOSITIES.—Some very fine persimmons, Japanese oranges and sugar cane at F. H Pfeiffer's. Try them. It will cost you nothing to see them.

A TRIP TO THE SNOW.

In response to a very courteous invitation from Vice President, Wm. Hoag, of the O. P. Railroad Company, a number of Albany gentlemen consisting of Messrs. Abe Hackleman, John A. Crawford, Jason Wheeler, S. S. Train and the senior editor of the DEMOCRAT boarded a special train on Wednesday morning and accompanied Vice President Hoag and Superintendent Bowen to the end of the track on the extension of that road east of Albany. Mr. Hoag was on his way to the tunnel some twelve miles beyond the end of the track to confer with employees of the Company. The trip was without special interest until the special reached the banks of the "classic Santiam." Up to this point, a distance of about 18 or 20 miles, the line of the road is through a thickly settled, rich, farming region. But now the mountains on either side of the Santiam begin to close in upon us and the company turn their attention to the beautiful mountain scenery. But here we are at Lyonsville opposite Mehama. This is a new town just springing into existence and its proprietor Mr. Henry Lyons is justly proud of it. He and others predict a great future for it. But "all aboard" and again we glide up the serpentine banks of the Santiam until we reach Mill City at the crossing of the Santiam. This town is laid out on the Marion county side. It has the usual number of business houses, and that inevitable accompaniment of civilization—a saloon. Here is a large lumbering mill whose proprietor says his power (water in a race from the Santiam) is the best in the State. In a short length of time he will be prepared to furnish every article of wood necessary to the structure of any building at short notice. Here and from this point on the mountains crowd us in more closely to the river and the snow on the mountain slopes extends its long arms down nearer and nearer to the river until at the end of the track we find two or three inches of snow. Here Mr. Hoag left us and set out on his forty mile trip afoot. We returned five miles to Galesville, where the company took dinner in the very midst of the crags and mountain peaks of the headwaters of the North Santiam. We arrived at Albany at 3 o'clock, p. m. all highly pleased with the trip and the uniform kindness and courtesy of Messrs. Hoag and Bowen. It is due to the managers and especially Mr. Bowen to say that all the gentlemen were much surprised to find the roadbed so secure and permanently ballasted and in such good condition generally.

A FINE BOOK.—Probably no book that has ever been introduced in Albany is of more real value than Cram's Family Atlas of the World. Besides a geography of the world in splendidly gotten up maps are departments devoted to history, political events, comparative debts, wealth, religious denominations, etc., in well gotten up and compact tables. Going with the work is the Geographical News, a paper giving the latest geographical events of the world. A young gentleman is now canvassing the city for this work, which deserves a good patronage.

DREW CAPITAL.—At Yaquina a man named Rader located recently and announced his intention of building a schooner for deep sea fishing. As he was practically without means for pursuing the work himself he went around with a subscription paper and got enough stock subscribed to complete the schooner. In the mean time Portland capitalists became interested in the enterprise and offered him money sufficient to raise the capital stock of the company to \$250,000, and begin the construction of two more schooners, and the company will start in this spring under the most flattering auspices.

WEATHER INDICATIONS.—For the 24 hours beginning at 12 o'clock, noon. Rain.

AUCTION.—Auction every afternoon at M. J. Monteith's, at S. E. Young's old store. Goods at your own price. Must be sold.

Thompson & Overman keep the best harnesses.

J A Archibald, agent Singer Manufacturing Co., opposite Odd Fellows Temple, Albany.

A bill is to be introduced in the Legislature to protect hotel keepers against dead beats. Why not protect newspapers and merchants against them too. Sodaville.

Jan. 23, 1889.
The remains of John Huddleston were interred in the Lebanon cemetery yesterday. Deceased leaves a wife, besides other relatives and friends to mourn his untimely death. The family of deceased, as well as the young man who caused the accident, are almost beside themselves with grief. They have the heartfelt sympathy of the entire community in their sad bereavement.

On the 17th inst. death entered the home of Mr. Simons, of this place, taking away the beloved wife and mother, Mrs Mary Simons. Deceased had been a long and patient sufferer from that dread disease, consumption. Mr Simons moved here over a year ago for the benefit of his wife's health, which seemed greatly improved for a while, but which had been gradually growing worse for several weeks previous to her death. Mrs Simons leaves a devoted husband, three children, besides other relatives and a host of friends to mourn her loss.

There will be divine services held at the school house on next Sabbath.
Our school is progressing finely with Mr. McGee as teacher.
Mrs Healey has been quite sick but is now convalescing.

Also Mr Hanson has been lying very low for several days past, but is now some better.
There was a dance at this place last Wednesday evening, which was quite well attended.
