LOCAL RECORD.

SEARLE & DEAN .- Four suits have recently been brought in the Circuit Court against Searle & Dean, in each case the firm's railroad plant having been attached. The plaintiffs are as follows, with the approximate amount of damages asked for Fleischner, Meyer & Co., \$1,100 ; Giant Powder Co., \$7,000 ; I R Dawson, \$4,000; B F Brady & Co., \$4,000. As we do not know how much is due the firm from the railroad nor as to the value of their assets it cannot be said what condition it will place It cannot be said what condition it will place time checks and other outside accounts not secured by attachment. We simply give the record. Each suit is for material used in railroad building.

STREET IMPROVEMENTS .- The Committee on Streets and Public Property and Street Commissioner have begun cutting down First Street on the sides so as to form a rounding surface, one that will make a natural drainage. Side and crosswalks are being repaired and matters put in shipshape generally. It is proposed to make the public highways in Albany an orna-ment to our city. This can be done in a marked manner as soon as the cows go and our citizens can sow grass seed adjoining their residence property and keep it down with lawn mowers instead of grinders and hoofs. Lets us make Albany the prettlest city in the Northwest.

LOST AN EYE .- A very unfortunate accident happened to Mr. Al Green Monday, says the Corvallis Times, which may result in his total blindness, Mr. Green was engaged in grubbing on Mr. Beach's place, just across the river from Corvallis. While chopping a small twig flew up and struck him just under the right eye, inflicted a gash and it is feared has destroyed the sight. Mr. Green has been blind in his other optic for a great many years, which makes the accident unfortunate in the ex-

CHATTEL MORTGAGES, -- We mentioned recently the fact that an Eastern man grumbled at the number of chattel mortgages filed here. A DEMOCRAT man his examined the records and finds that during 1888 there were 230 mortgages filed, aggregating in amount about \$125,000. Whether this is very large or not we do not know; but doubt if it is larger than in counties in the East of a like population, 'f as large People have to borrow money everywhere, and if gotten on personal security it takes a chattel mortgage in most cases.

MONEY IN DIRT .- Speaking of money made in real estate the following told a Corvallis paper by Jack Alphine, wellknown in Albany, is a little the richest "Jack says that he knows of a Chinaman who has made more money dabbling in who has made more money dabbling in real estate than any other individual in the country. He was the cook at the tunnel on the O. P. extension. He made \$1,000 a week feeding 200 men at \$5 a plece, on dirt. Jack says he would have stood it without a murmur, but the land belonged to the government."

WHERE IS IT ?--- Where is Samoa anyway, a great many are asking. After a desperate struggle we have succeeded in finding it. It is located at 15 degrees south latitude and 170 degrees west longitude. It is about 2000 miles southwest of the Sandwich Islands, is on the route from San Francisco to Melbourne, and is the same as the Navigators Islands. It is a small cancern and off a good ways to have such a wordy quarrel about. es southwest

STATE LEGISLATURE

TUESDAY, Jan. 29. Two or three senate and house bills were read third time and passed, none of importance, one being to change name of Averill 'o Bandon. Such bills always swim fastest. The bill for exterminating Canada thistles also passed the senate; also bill providing that married women may acknowledge deed same as men; also a bill providing that property of a wife shall go to her husdand on her death unless otherwise provided for in will. In the house the following were among new bills intro-duced: Aiding Benton county to build a road from Alsea to tidewater. Amending scheol law, for public soda spring in Linn county (by Moretock), annulling annual appropriations for agricultural college, amending school law, for state beard of imamending school law, for state beard of im-migration, punishing dog scaling, for hold ing supreme court at Pendieton and Jack-sonville, protecting owners of stallions and punishing change of marks on saw logs (by Meyers), amending school law (by Morelock), allowing Salem & Astoria R & Co to build a bridge across the Willamette at Salemr Several senate bills were read first time and house tills second time.

A SUBSIDY GETTER .--- G. W. Hunt seems to be the boss subsidy getter. He is making his offers right and left and they are not particularly modest. Here is one : "G. W. Hunt met the Dayton people Saturday. He made them a proposition to build his road to that place for a subsidy of

\$45,000, right-of-way from Waitsburg and depot grounds. The Dayton people pro-pose to accept the offer, and have com-menced work already." He has already got immense ones from Walla Walia, Un-ion and other places. READ THIS .- Mr. W H Greenwood has purchased the gallery formerly occupied by Mr. L W Clark. He is now prepared

to do all styles of photographic work from a locket to life size and can finish in oil, water color, India ink and crayon. Mr. Greenwood is just from the east and is thoroughly acquainted with first-class work. He has come here to make this his home and cordially invites the public gen erally to call and get acquainted. He comes highly recommended as a first-class artist.

SHAKE .- It does one good to see two friends meet and have a hearty shake. The two gents that met vesterday on First street, shook so long that a bystander asked them what was up. They replied that they were congratulating each other on having found the cheapest place to buy groceries at the Willamette Packing Co.'s store,

If you will allow me space in the columns of your valuable paper, I will give you a few items from this part of Oregon which may be of interest to some of your readers, and especially those who are not acquainted with the plan upon which Indian Boarding Schools are conducted. A person who has never visited, or had experience in one of these schools, has not the least idea as to how they are carried on and what a vast amount of good they are doing for the "Red men of the forest."

A KLAMATH LETTER.

the and an and the same in side -

There are two schools here on the Reservation, one located at Klamath Agency, and the other at this place. The school building here is a large and commodious structure suitably arranged for its purpose The school-rooms, boarding-rooms for the pupils and living-rooms for employees are all located in this building.

There are at present 84 pupils in atten dance at this school, They include several tribes of Indians, among which are the Klamaths, Modocs, Snakes and Pitt Rivers. We have pupils attending from the age of 6 years to 24, most of whom can read and write exceedingly well, and some are very intellectual and bright for the chance they have had. Their studies include reading, writing, spelling, geography, arithmetic and U. S. history. Our school session con-sists of 3 hours in the forenoon from 9 o'clock to 12. The afternoons are devoted to industrial work, the boys are taught the ways of farming, caring for stock and many various other things necessary to a civilized race, the girls are instructed in the things pretaining to house-keeping, etc. The school at present is under the supervision and management of Prof. J w. Brandenburg, who is doing a vast amount of successful work in the way of educating and training the pupils of whom he has charge. He is an energetic and influential instructor and the Yainaz school is flourinstructor and the Yainaz school is flour-ishing grandly under his able management. This is a Government school, and every-thing is furnished the school by the Gov-ernment. Here we have a vast store-house of provisions for school use, which are laid in for a years time. Clothing of all kinds is also furnished the pupils and all that is for the advancement and civilization of these people is being done. Many of the Indians of this Reservation are well-to-do, and in good circumstances financialiy. (con-sisting principally of stock), and quite a good crop of wheat was produced by some who own tillable land. The Indian of to-If you want the cheapest and best heating stove call on G. W. day, is not the Indian of twenty years ago. No, not by any means, he is far superior in every respect—instead of their savage and roaming habits they are becoming perm-anently settled, and are pursuing the occu-pations of industry. In this line as well as several not mentioned it is a noticeable fact, that they are making rapid and marked progress. In passing over the Reservation one will notice quite a number of neatly constructed dwellings, well furnished. This was not the case a few years ago. But what is the cause of all these changes in the medes and habits of this race of peo-ple ? I say it is the education they have received, and the training in the pursuit of industry that has been taught them is the means by which these changes are brought about. And I truly believe, the only, and successful way of civilizing the Indians is to educate them. This is being done at a rapid rate and may it still continue. day, is not the Indian of twenty years

I purchase this soap in large quantities direct from the factory and thus secure it at the lowest price. Each box contains 20 bars full weight, and it never fails to give satisfaction. Since introducing this soap the demand for it has constantly increased. The present price is \$1.10 per box.

You better not go to the variety store op-posite the Russ House if you have no small change with you, for you will see such bar-gains as you never saw in Albany before. Two editors at Crawfordsville, O, have been fined for publishing lottery advertise-ments. There are several in Oregon who might he fined if the law was enforced. A gypsy woman at this city, about to be married, recently had a necklace made of five dollar pieces. It took fourteen of them and they were united by gold chains. For-tune telling evideatly pays. One of the first stocks of clothing and hats ever broacht to Albany has just been received at L. E. Blain's. If you would see the latest novelties call at once.

Geo Randall, the gentleman who had a inger cut off at J C Dillon's factory Mon-uay, had another one cut off at the rame place yesterday afternoon. "It never 1, ins but it pours."

M. Robert Glass, of Crawfordsville, who was in the city yesterday, informed us that he had closed his store at that city. His son, Henry, has gone to Washington terri-tory to locate, probably at Colfax.

Join Wannamaker spends \$5,000 a week for advertising. We know of men who think 5 cents a week is enough. But then every-body is not a John Wannamaker, and John was not himself until be began advertising.

The weakness and debility which result from illneas may be speedily overcome by the use of Ayer's Sarasparilla. This is a safe, but powerful tonic, assists digestion, regu-lates the liver and kidneys, and cleanses the blood of all germs of disease.

A Prineville paper says: It is intimated that there is an organized band of horse thieves located in the northern part of the county, who subsist by taking horses off the range and converting them to their own une.

The best anodyne and expectorant for the cure of colds and coughs and all throat, lung and bronchial troubles, is, undoubtedly, Ayer's Cherry Pectoral. Ask your druggist for it, and, at the asme time, for Ayer's al-manac, which is free to all.
